South African Defence Force Application Form 2015:

Researching the Military Helena Carreiras, Celso Castro, Sabina Frederic, 2016-03-02 Researching the Military focuses on the experiences of researchers who study the military around the world. It explores the historical, social, institutional, and personal factors that frame research and scrutinize the way knowledge in this area impacts society and policy. More than merely analyzing research experiences yet necessarily including them, it is also about the experiences of researchers, their position with regard to the object of their studies, the institutional context where they work, and the way their research impacts the academic and policy-making fields in the respective countries. The common theme to the various chapters is reflexivity, a conscious effort at addressing the conditions of research and the position of the researcher and the research participants in that interface. By collecting diverse experiences of researchers from across the world, this volume aims to enhance reflexivity in the field of military studies and to encourage the exchange of knowledge between the academic field and the military arena. This book will be of much interest to students of military studies, research methods, sociology, social anthropology, and security studies in general. South Africa's Post-Apartheid Military Lindy Heineken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security, political, and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented, and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed, and the implications for force procurement, force preparation, force employment, and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality, and mainstreaming the rise of military unions, and why a confrontational instead of a more corporatist approach to labour relations has emerged. HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence, security, and civil-military relations of countries around the world. *Private Military and Security Contractors* Gary Schaub, Jr., Ryan Kelly, 2016-06-16 In *Private Military and Security Contractors*, PMSCs, a multinational team of scholars and experts address a developing phenomenon: controlling the use of privatized force by states in international politics. Robust analyses of the evolving multi-layered tapestry of formal and informal mechanisms of control address the microfoundations of the market, such as the social and role identities of contract employees, their acceptance by military personnel, and potential tensions between them. The extent and willingness of key states—South Africa, the United States, Canada, the United Kingdom, and Israel—to monitor and enforce discipline to structure their contractual relations with PMSCs on land and at sea is

examined as is the ability of the industry to regulate itself Also discussed is the nascent international legal regime to reinforce state and industry efforts to encourage effective practices punish inappropriate behavior and shape the market to minimize the hazards of loosening states oligopolistic control over the means of legitimate organized violence The volume presents a theoretically informed synthesis of micro and macro levels of analysis offering new insights into the challenges of controlling the agents of organized violence used by states for scholars and practitioners alike *Queer African Cinemas* Lindsey B. international security and defence and in doing so show the agency of the continent's countries and armed forces in International Security and Relations Replicating & Reproducing Policing Research Khadija Monk, Jacek

Koziarski, 2024-04-30 This book addresses the need for policing scholarship to strengthen its empirical cumulative knowledge base by replicating and reproducing earlier studies. The chapters in this volume advance policing research by replicating and reproducing earlier studies investigating the generalizability of research findings and making data and research methods available to other researchers to encourage scientific exploration of previous research findings. Each chapter addresses important scientific goals of validity, reliability, and generalizability which build our cumulative knowledge of what is known in policing research ultimately informing policymaking. The book offers insights into why replicating and reproducing policing scholarship is critical from emphasizing the importance of making data and study material publicly available to facilitate replications and reproductions to reproducing studies in new contexts and cautioning against making policy making decisions based on studies that have not been replicated. This volume highlights the immense value in shifting researchers' priorities even slightly to focus less so on originality and innovation to make room for replications and reproductions thereby shedding light on how true empirical knowledge on policing and police practice is dependent on it. This book was originally published as a special issue of *Police Practice and Research*. *The Oxford Handbook of Late Colonial Insurgencies and Counter-Insurgencies* Martin Thomas, Gareth Curless, 2023 Beginning with Britain's 1948 declaration of a Malayan Emergency and ending with the 1973 withdrawal of US ground troops from Vietnam, this Handbook connects ideas about contested decolonization and the insurgencies that inspired it with an analysis of patterns and singularities in the conflicts that precipitated the collapse of overseas empires. **Cyclones in Southern Africa** Godwell Nhamo, Kaitano

Dube, 2021-07-24 The subject of tropical cyclones in Southern Africa, also known as hurricanes or typhoons in other regions of the world, has been growing over the past few decades. However, there is still limited literature on foundational and fundamental topics on the matter. To this end, this book addresses this gap, citing some examples from both historic and recent tropical cyclones. The book presents meteorological and climatic aspects of tropical cyclones, including reviews on forecasting, warning, message dissemination, and public response aspects of early warning systems, with a focus on the Tropical Cyclones Idai and Kenneth. Fundamentals in disaster risk reduction (DRR) are also discussed, moving from the provisions of the Hyogo Framework for Action 2005-2015 to the Sendai Framework for Disaster Risk Reduction 2015-2030. Climate change issues are central to the publication, as well as the role of information and communication technologies in DRR and management. The book also tackles some challenges and opportunities associated with the implementation of regional legal and institutional frameworks on DRR. The book comes as part of a series with three volumes. The other volumes include *Cyclones in Southern Africa Vol 1: Interfacing the Catastrophic Impact of Cyclone Idai with SDGs in Zimbabwe* and *Cyclones in Southern Africa Vol 3: Implications for the Sustainable Development Goals*. To this end, this book is suitable as a
