

MOOD VS. TONE

Name: _____

The Start of Something Great!

On the first day of school, I couldn't believe I was starting 3rd. When I entered the classroom, I was amazed to see the room with sparkling lights and a colorful library filled with books! I found my desk by finding my name tag. It had my name and was even written color! I knew this was going to be an amazing year!

Which word best describes the author's **tone**/attitude towards the first day of school?

What is your **mood** after reading this?

Ughh... Again?!?!?

"My alarm clock woke me up too early," I said to my friend on my way inside the building. I couldn't believe I was back again. It felt like it was just June and now I was back at this horrible, depressing place. I was kind of excited to meet my teacher, but I was also a little sad I was playing Fortnite!!! I walked into the classroom and saw all the desks and chairs. I found my desk and plopped down with a sigh.

Which word best describes the author's **tone**/attitude towards the first day of school?

Scott, Barbara Purdum-Cassidy, 2016-08-17 The nation's demographic of public schools are more ethnically racially and linguistically diverse than ever before Strauss 2014 However there are still educational policies and practices that call to question whether traditionally marginalized students receive an equitable education This is demonstrated in national achievement trends which highlight disproportionality ratings among minoritized student groups Also when examining school discipline policies expulsion ratings special education services and school choice movements all seem to handicap educational opportunity for low income Black and Brown students As American schools become more and more diverse it is imperative that the literacy practices used to teach young students of color reflect the nation's changing demographic This book provides practical insights guided by conceptual and contextual knowledge in understanding how to teach urban African American and Hispanic Latino students by discussing issues associated with critical pedagogies literacy and culturally appropriate instructional strategies that have demonstrated success for traditionally marginalized student populations This book examines culturally affirming literacy practices from three main components 1 scholarship 2 the field of practice and 3 teacher education models Each of these three are significant in understanding how to teach minoritized populations As such chapters have been organized into three main sections that address scholarship and research trends in

the field and implications for teacher education models all in order to advance the literacy achievement of African American and Hispanic Latino students

Moore, 2004 Active Teaching and Active Learning Strategies Creating a Blueprint for Success is the cumulative result of a year of reflecting asking and listening to questions and comments that many have concerning the education of our youth The book's genesis however started many years ago as the state of California along with many other states embraced a standards based accountability system This accountability has now been coupled with the recent addition of The No Child Left Behind Legislation In a real sense we are entering both the best and worst of times I say this because of the effects of high stakes testing and the requirement that all students reach high levels of proficiency which admittedly are very lofty goals For this to be realized changes will be required in teaching and assessment as well as a more concentrated focus on student learning The instructional design introduced in this book advocates four components academic social collaborative contextual and

cognitive developmental These components work in tandem with Active Teaching and Learning Strategies Combined they form a student responsive instructional methodology which optimizes student success and academic achievement We wanted to create a book that demonstrated to those of us in the field of education the value of looking at academic standards with data about our students and reflecting on how this information should influence our choices concerning instructional practices and our perceptions about the students that we are entrusted with The focus of this endeavor is to see all students achieve and succeed and to keep passion and compassion at the heart of all that we do It is the premise of this book that the difference between effective and outstanding teachers are that outstanding teachers care know how to utilize data practice active teaching strategies and promote the active learning of students Together these characteristics became the design and course of action that Created a Blueprint for Success
