Snyder,2023-09-26 Donation based crowdfunding is an increasingly common and visible practice where campaigners ask friends family and even complete strangers for help It isn t unusual to see these campaigns in the news and on social media following a tragedy or disaster and they have helped millions of people However crowdfunding also creates serious ethical and political problems including undermining privacy worsening social inequities and injustices and encouraging fraud and misinformation This book presents these concerns in the context of more traditional giving practices It ends with values to guide crowdfunding and suggestions for how to engage in crowdfunding in less problematic ways **The Future Designer**

Michael Leube,2024-06-19 During periods of environmental and societal upheaval design has the potential to be a formidable catalyst towards a sustainable future However to unleash its full power significant shifts in both theory and practice are imperative This book adopts a unique approach blending anthropological perspectives with philosophy and cognitive science and advocates for a thorough transformation of the existing design curriculum Supported by a vast body of literature in evolutionary science and design research the book presents a blueprint for fostering more sustainable patterns of production and consumption This blueprint is grounded in human virtues rather than vices and proposes a new curriculum tailored towards pro sociality and sustainability Leveraging his extensive professional background and expertise in the circular economy Michael Leube offers practical examples methods and tools for implementing sustainable approaches in the practical work of experienced designers Showcasing cutting edge innovations for pro social and humanitarian design the book ultimately argues that if we change the objective of design from creating desire to creating value we can solve many of the most pressing social problems from the cooperation of citizens to sustainable cities The book will be useful for those studying and teaching design and anthropology and it will also be an important tool for practicing designers and engineers interested in learning how to design for social and ecological awareness *Soil Sisters* Lisa Kivirist,2016-01-01 The first

The Rowman Littlefield Handbook on Aging and Work is a comprehensive resource for students scholars and practitioners seeking a broad overview of interrelated topics concerning the aging workforce or insightful discussions of specific issues and challenges facing people in the demographic Notably its chapters address the impact of current conditions and developments on the individual worker organizations and employers and society as a whole **Philanthropy in Transition** M. LeClair, 2014-10-23
The already vibrant charitable sector in the US is in the midst of a transformation that is altering both the manner in which donations occur and the causes that are supported *Philanthropy in Transition* examines the unique role that charitable giving has played in the US from colonial times to the present The rising importance of new means of contributing particularly giving through buying or investing is considered These new models of philanthropy have expanded the ways by which ethical consumers or investors can support a cause Although these innovations represent a

revolution in the structure of philanthropy they introduce significant complexity to the act of giving donors are far removed from recipients and this may weaken the impact of contributing This transformation is also likely to accelerate the rising importance of web based promotion and fund raising as traditional nonprofits compete with social market enterprises and social impact investments for funds
