Transforming Literacy Curriculum Genres Christine C. Pappas, Liliana Zecker, 2005-05-18 In this volume university researchers and urban elementary teacher researchers coauthor chapters on the teachers year long inquiries on a range of literacy topics that they conducted as part of a collaborative school university action research project Central to this project was the teacher researchers attempts to transform their teaching practices to meet the needs of students from diverse ethnic and linguistic backgrounds and their finding that their inquiry efforts resulted in developing more collaborative styles of teaching Because the everyday interactions between teachers and students are realized by the social talk in the classroom the university and teacher researchers analyzed classroom discourse to study and document the teachers efforts to make changes in the locus of power in literacy teaching and learning The chapters include many classroom discourse examples to illustrate the critical points or incidents of these teachers inquiries They show the successes and the struggles involved in shedding teacher controlled patterns of talk This book explores the process of urban teachers journeys to create dialogically organized literacy instruction in particular literacy routines called in this book curriculum genres The book is organized in terms of these curriculum genres such as writing curriculum genres reading aloud curriculum genres drama curriculum genres and so forth Teacher inquiries were conducted in various elementary grade levels from kindergarten through grade eight Three occurred in bilingual classrooms and one in a special education classroom The first and last chapters written by the editors provide the background theoretical and methodological underpinnings of the project

Math Makes Sense!: A Constructivist Approach To The Teaching And Learning Of Mathematics Ana Helvia Quintero, Hector

Rosario,2016-03-02 The methods for teaching mathematics usually follow the structure of mathematics The problem with this is that the structure of mathematics took centuries of elaboration to develop and is not the same as how one originally experiences mathematics Based on research of how mathematics is actually learned this book presents an innovative approach for teaching mathematics that will engage pupils and can have lifelong benefits for how they take on board more advanced mathematical topics Math Makes Sense makes use of the realistic mathematics education RME philosophy which bridges the gap between informal mathematics learning such as in day to day life and more formal teaching in school Many real life situations as examples for learning are included as well as different mathematical and logic puzzles that will stimulate learning and foster understanding The ideas presented are not confined to one national curriculum and so can be helpful worldwide to teachers instructors both in practice and those still in training private tutors homeschooling parents and educational researchers
