Strange Commotions Peter Rhaven, 2009-06 STRANGE COMMOTIONS This book is a psychological journey into that outer fringe of reality It is not necessarily meant to be a work of horror suspense or science fiction although there are elements of each but rather a collection of stories that have a tangible sense of apprehension about them It is more in the traditions of *The Twilight Zone* or *The Outer Limits* and not the typical horror suspense Now enter here into the twisted congeries and haunting reflections of the human mind where all strange commotions begin

The Amsterdam Town Hall in Words and Images Stijn Bussels, Caroline Van Eck, Bram Van Oostveldt, 2021-05-20 The most famous monument of the Dutch Golden Age is undoubtedly the Amsterdam Town Hall by architect Jacob van Campen inaugurated in 1655 Today we stand in awe confronted with the grand Classicist facade the delightful horror of the sculptures in the Tribunal and the magnificence of the huge Citizens Hall In the period of its construction many artists and writers tried to capture the overwhelming impact of the building by among other comparisons relating it to the ancient Wonders of the World and by stressing its splendour riches and impressive scale In doing so they constructed the Town Hall as the ultimate wonder thus offering a silent but very powerful testimony to the power and position of the City of Amsterdam and its rulers as equals of the other European regimes To fully understand these mechanisms of power this book relates the Town Hall to other impressive buildings of the same period the palace of the Louvre Saint Peter's Basilica and Banqueting House and their visual and textual representations Thus this book gives a broad audience of readers new insights into the agency of magnificent buildings *The Amsterdam Town Hall in Words and Images* does not restrict itself to a national scope or a purely architectural analysis but clarifies how artists and writers all over Europe presented buildings as wonders of the world This
