

TOK Exhibition: Subtext and Connotation

The TOK prompt I have selected is: **"What challenges are raised by the dissemination and/or communication of knowledge?"**. This exhibition explores this prompt by reflecting on knowledge and language, and more specifically on whether subtext and connotation always create confusion rather than help us to communicate knowledge. The language we use in our everyday lives can often be interpreted many different ways by different people, depending on their cultural background, beliefs, ideologies, affiliations, personal experiences etc. In particular it seems that subtext and connotation can be particularly challenging as they are often only recognised by people that share some particular knowledge or experiences, and it seems that they can easily be interpreted very differently by different people which can cause confusion and hinder communication of knowledge.

Object 1. Starbucks holiday cup

This cup was used by Starbucks in 2017 and was controversial because some people viewed the symbol of the two hands holding hands on the cup as a sign that Starbucks was promoting a homosexual agenda, because they saw the cups as having an LGBT subtext. However, many other people just saw the cup as spreading joy and love during the holiday season and did not think that there was any particular subtext at all.

This cup is particularly interesting for this exhibition because a Starbucks spokesman said that they had intentionally designed the cup so that customers could interpret it in their own way, which suggests that they were deliberately trying to communicate in an open or vague way rather than seeing the disagreement this might cause as being negative/ a challenge. In this way, the cup highlights how confusion arising from the use of subtext can be useful or can actually even be used by people intentionally to provoke discussion. The cup generated a lot of media attention for the company while still allowing them to say that how the cup was to be interpreted was up to their individual customers to decide.

Knowledge According to My Gardener: 50 Stories and Crosswords to Start TOK Conversations Ayman Al Zanoun, 2014-12-10 Theory of Knowledge (TOK) is about how to think, not what to think. In *Knowledge According to My Gardener*, author Ayman Al Zanoun offers fifty stories and crossword puzzles to bring TOK conversations to life and to add a sense of entertainment to learning. Designed to help students and teachers to start meaningful conversations about knowledge and the ends of good education, *Knowledge According to My Gardener* first tells the story of a struggling teacher who couldn't communicate with students and how discovering the power of storytelling changed his life. It then introduces the gardener, the common thread in all the stories, who embarks on a unique journey to explore knowledge. Each story presents philosophical insights drawn from Plato, Rorty, Wittgenstein and many others and blends them with the world of everyday life, the world of selfies, football and birthdays.
