Fung, 2013-05-29 This book examines different aspects of Asian popular culture including films TV music comedy folklore cultural icons the Internet and theme parks It raises important questions such as What are the implications of popularity of Asian popular culture for globalization Do regional forces impede the globalizing of cultures Or does the Asian popular culture flow act as a catalyst or conveying channel for cultural globalization Does the globalization of culture pose a threat to local culture It addresses two seemingly contradictory and yet parallel processes in the circulation of Asian popular culture the interconnectedness between Asian popular culture and western culture in an era of cultural globalization that turns subjects such as Pok mon Hip Hop or Cosmopolitan into truly global phenomena and the local derivatives and versions of global culture that are necessarily disconnected from their origins in order to cater for the local market It thereby presents a collective argument that whilst local social formations and patterns of consumption and participation in Asia are still very much dependent on global cultural developments and the phenomena of modernity yet such dependence is often concretized reshaped and distorted by the local media to cater for the local market *Contemporary Cinema and the Philosophy of Iris Murdoch* Lucy

think about fashion and time the first identifies the seasonal nature of fashion as an industry and shows how this has impacted on workers and wearers alike The second looks at fashion design as a ceaseless process of adaptation reconstruction and recombination of motifs in which nostalgia and revivals play their part The third construes fashion s imaginary with its capacity for fantasy and myth making as a form of alternate history that asks what if Within this framework key classic texts are juxtaposed with lesser known ones in an interdisciplinary approach that includes philosophy history literature media and fashion design ranging from the 18th century to the present It will be of interest to anyone wishing to understand one of the most complex yet inescapable aspects of fashion its relationship to time and will be a critical resource for undergraduate and postgraduate students in the humanities and all those interested in fashion in all its creative commercial and cultural aspects *The Better Mousetrap* Simon Pont,2012-11-03 Advertising can be great Great advertising that is Brands live or die on the power of their advertising and the advertiser s role is to build better mousetraps But why do we love certain brands and passionately or indifferently reject the rest What do our brands say about us And why do we feel so compelled to use digital brands to say even more Advertising has always been the hard sell and subtle hustle that piques our interest and gets us thinking I WANT that but in a world that now moves with binary speed the Brand Game is taking ever new and remarkable turns in its pursuit of better and faster mice A provocative and insightful look at the chase The Better Mousetrap lifts the lid on the brand and advertising strategies of leading companies who in a world redefined by digital media are setting the best traps for these ever quicker mice **The Economist** ,2003
