The Infinite Elevator Hugo Bainbridge, Tom our protagonist is the quintessential everyman He commutes He pays bills He dreams of winning the lottery but only if he doesn't have to work for it His life in short is as unremarkable as a beige wall Until that is he steps into an elevator that decides to redefine the meaning of vertical transport This isn't just any elevator it's an elevator that doesn't believe in limits spatial temporal or otherwise It's a vertical Rorschach test projecting the reader's own anxieties and probably a few singing vegetables onto the canvas of reality Each floor presents a new and increasingly absurd scenario

one minute he's dodging opera singing onions the next he's attempting a horizontal waltz on a gravity reversed planet while engaging in a profound philosophical debate with a squirrel who claims to be the reincarnation of Socrates The humor is derived from the contrast between the utterly impossible situations and Tom's consistently relatable reactions His bewilderment his attempts to maintain some semblance of order his increasingly desperate searches for an exit or even a decent cup of coffee This is a journey into the absurd a celebration of the unexpected and a gently mocking investigation into the very nature of existence all packaged within a surprisingly fast paced and hilarious narrative So settle in reader You're in for a wild ride Just remember to leave your expectations at the door you'll need the space **Scott, Foresman Reading**
