A. Faber, 2012-03-28

According to Mayan prophecy the world will end December 21 2012 It is a mystery how the Mayans came to this conclusion it is also a mystery how to stop certain doom But in all their wisdom is there a possibility that the Mayans knew how to postpone the end of the world If so could there be an ancient text that reveals the answer archaeologists seek Anthropologist Kate OHara thinks so She and a team of fellow academics stumble upon a mysterious Mayan codex while investigating in the Yucatan Peninsula Before the codex can be authenticated however it disappears and the team begins to receive death threats from a menacing secret society Luckily Kate already made a copy of the manuscript and so begins the lengthy process of translation despite the terrible danger to their lives The codex reveals the story of Ahkan a Maya shaman and her cousin and soul mate Took Pac a priest of the Maya Temple of Kulkulkan Took Pac discovered a secret text written by the Mayan king and prophet Chan Bahlam II Kate believes the answer to the worlds crisis may be found in the words of Chan Bahlam Now she must try to translate the manuscript in time and live long enough to share the good news with others *The Memory Artist's Love Partition* Shaylan Bradley, 2024-11-08

Sams Teach Yourself Maya in 24 Hours Kenny Roy, Fiona Rivera, 2014 Full color learn how to create impressive 3D imagery Cover **Substance of the Ancient Maya** Andrew K. Scherer, Thomas G. Garrison, 2024-12-01 Substance of the Ancient Maya Kingdoms and Communities Objects and Beings collects twelve essays by top scholars that highlight what is new in research pertaining to the ancient Maya Subjects range from updated political histories of major kingdoms in the southern Maya Lowlands to explorations of the nature of Maya writing and materiality These essays were inspired by the scholarship of Stephen Houston and celebrate his transdisciplinary commitment to research in anthropological archaeology epigraphy and art history The contributions in this volume are organized into two sections that respectively reflect different scales from which to approach the substance of the ancient Maya from hand held objects to entire kingdoms This dichotomy reflects the breadth of questions central to current research on the Maya It also illustrates how certain themes such as the relationship between the living and the realm of the supernatural are fundamental to both thinking by and about the Maya at all scales A diversity of methods is not only embodied by this assemblage of essays but is also spread equally across the two sections of the book illustrating that archaeologists epigraphers geographers and art historians can equally contribute to the substance of

kingdoms and communities as they can to objects and beings Collectively these contributions show how the objects and beings that composed the Classic Maya world were both literal and sacred substances that mediated relations not only among living people but with gods and ancestors A final chapter by Stephen Houston reflects on unfinished projects of the ancient Maya as a metaphor for all of the work yet to be done to move forward in our studies of the past **Harlequin**
