Her book provides examples to help readers find their own writing style, deal with family stories, missing pieces of information, and anomalies. It also offers advice on key aspects of composition, such as adding local and social history context and using secondary material. The focus throughout is on how to develop a story from beginning to end. Exercises are a key feature of the text. There is guidance on the various formats a family history can take and how to choose the appropriate one, with examples of format and layout. Production and publishing are also covered: books, booklets, newsletters, websites, blogs, and ebooks.
