Each section of the book includes a discrete task called a Building Block which requires students to apply the skills learned toward the development of their own paper. This step-by-step approach allows students to construct knowledge as they become more familiar with the process, making writing a research paper a less intimidating task. Special features: This guide uses simple, direct language for those for whom writing a research paper is new. Most example writing is from international students in an ESL program or first-year writing class, including two sample papers, one in APA and one in MLA. A section on responding to instructor feedback to provide students with the tools to read and understand comments and use them to improve the first draft.
