

Multi-Source Argumentative Research Essay

Purpose:

This assignment provides you with the opportunity to practice using the sources you identified in the Annotated Bibliography assignment to write an essay that both presents and explores a variety of perspectives and research on a significant research question and uses that information to develop your own tentative answer.

This provides practice in the elements of critical thinking such as:

- Identifying and analyzing alternative perspectives,
- Using evidence to support your own position, and
- Articulating underlying assumptions, values and beliefs of different arguments, including your own.

Description:

The deets:

- 7 to 8 pages, 12 point Times, double-spaced
- References at least 7 sources (not limited to the Annotated Bibliography)
- Includes a MLA style Works Cited page
- Uses MLA in-text citation style

Grading Criteria:

Focus

- All of the parts of the essay relate to the research question/main claim.
- The body of the essay develops the writer's position.

Organization

- The introduction engages the audience, provides appropriate background to the issue or question, and makes clear its significance.
- The sections and paragraphs are in a logical, purposeful order that is signaled with clear transitions.
- The paragraphs are unified and cohesive.
- Includes a conclusion that brings closure to the argument.

Support

- Sources are adequately attributed, summarized and evaluated.
- Relationships between sources are explored, if appropriate.
- The writer's position is supported by reasons and evidence.

Correctness

- The surface characteristics meet expectations for college writing.

Writing Effective Course Assignments Elia Shabani Mligo, 2017-05-11 Non degree and undergraduate students are both inexperienced essay writers who need close guidance to become effective writers One of the puzzles which they encounter at the college and university after reporting for studies is the course assignments offered to them by their lecturers which demand them to be critical thinkers and argumentative essay writers In most colleges and universities lecturers provide to students broad questions to answer in the form of essays either in group or individual assignments How should they turn the broad assignment questions provided to them by their lecturers into specific researchable topics for essays How should they

handle literature in order to obtain valuable information to answer the provided question How should they construct an informed and convincing argument using the collected information as evidence This book concerns these and other related questions With its clear illustrations the book is designed to be a self study guide and to offer solutions to many struggling students in colleges and universities At the same time the book can be helpful for lecturers to instruct their students how to write effective course assignments in their respective courses Assignments across the Curriculum Dan

Menasche,1990-04 Writing the Classroom Stephen E. Neaderhiser,2022-11-21 *Writing the Classroom* explores how faculty compose and use pedagogical documents to establish classroom expectations and teaching practices as well as to articulate the professional identities they perform both inside and outside the classroom The contributors to this unique collection employ a wide range of methodological frameworks to demonstrate how pedagogical genres even ones as seemingly straightforward as the class syllabus have lives extending well beyond the classroom as they become part of how

college teachers represent their own academic identities advocate for pedagogical values and negotiate the many external forces that influence the act of teaching Writing the Classroom shines a light on genres that are often treated as two dimensional with purely functional purposes arguing instead that genres like assignment prompts course proposals teaching statements and policy documents play a fundamental role in constructing the classroom and the broader pedagogical enterprise within academia Writing the Classroom calls on experienced teachers and faculty administrators to critically consider their own engagement with pedagogical genres and offers graduate students and newer faculty insight into the genres that they may only now be learning to inhabit as they seek to establish their personal teacherly identities It showcases the rhetorical complexity of the genres written in the service of pedagogy not only for students but also for the many other audiences within academia that have a role in shaping the experience of teaching Contributors Michael Albright Lora Arduser Lesley Erin Bartlett Logan Bearden Lindsay Clark Dana Comi Zack K De Piero Matt Dowell Amy Ferdinandt Stolley Mark A Hannah Megan Knight Laura R Micciche Cindy Mooty Dustin Morris Kate Navickas Kate Nesbit Jim Nugent Lori A Ostergaard Cynthia Pengilly Jessica Rivera Mueller Christina Saidy Megan Schoen Virginia Schwarz Christopher Toth

Redefining Liberal Arts Education in the Twenty First Century delves into the essential nature of the liberal arts in America today. During a time when the STEM fields of science, technology, engineering, and math dominate the narrative around the future of higher education, the liberal arts remain vital but frequently dismissed academic pursuits. While STEAM has emerged as a popular acronym, the arts get added to the discussion in a way that is often rhetorical at best. Written by scholars from a diversity of fields and institutions, the essays in this collection legitimize the liberal arts and offer visions for the role of these disciplines in the modern world. From the arts pedagogy and writing to social justice, the digital humanities, and the African American experience, the essays that comprise *Redefining Liberal Arts Education in the Twenty First Century* bring attention to the vast array of ways in which the liberal arts continue to be fundamental parts of any education. In an increasingly transactional environment in which students believe a degree must lead to a specific job and set income, colleges and universities should take heed of the advice from these scholars. The liberal arts do not lend themselves to the capacity to do a single job but to do any job. The effective teaching of critical and analytical thinking, writing, and speaking creates educated citizens. In a divisive twenty-first century world, such a citizenry holds the tools to maintain a free society, redefining the liberal arts in a manner that may be key to the American republic. *New Directions in Teaching Theatre Arts* Anne Flitsos, Gail S. Medford, 2018-07-20. This book reflects the changes in technology and educational trends: cross-disciplinary learning, entrepreneurship, first-year learning programs, critical writing requirements, course assessment, among others that have pushed theatre educators to innovate, question, and experiment with new teaching strategies. The text focuses upon a firm practice-based approach that also reflects research in the field, offering innovative and proven methods that theatre educators may use to actively engage students and encourage student success. The sixteen essays in this volume are divided into five sections: Teaching with Digital Technology, Teaching in Response to Educational Trends, Teaching New Directions in Performance, Teaching Beyond the Traditional, and Teaching Collaboratively or Across Disciplines. Study of this book will provoke readers to question both teaching methods and curricula as they consider the ever-shifting arts landscape and the potential careers for theatre graduates.

Plagiarism Bill Marsh, 2012-02-01. Plagiarism takes an in-depth look at the history of plagiarism in higher education in light of today's Web-based plagiarism detection services. Challenging the widespread assumption that plagiarism is a simple matter of student

cheating or scriptural error Bill Marsh argues that today's teachers and educational institutions may be cheating themselves and their students in pursuing quick fix solutions to the so called epidemic of student plagiarism When students submit papers cribbed from materials found on the Web or purchase research papers from Internet paper mills these acts of sedition must also be recognized for better or worse as examples of new media composition techniques Examining Web based plagiarism detection services and software such as Glatt EVE Plagiarism Finder and Turnitin com Marsh contends that these services regulate writing and reading practices in ways consistent with precomputer even preindustrial efforts to manage and refine human behavior As he weaves together print history education rhetoric and communication theory Marsh shows that the rules governing plagiarism and the proper use of borrowed materials have their origins in early intellectual property law in the reading practices of twelfth century monks and the precepts of medieval alchemy Through an examination of these prescholastic models this book calls for a revised approach to academic writing in computer mediated environments
