

Argument Writing: The Introductory Paragraph

The paragraph below is an introductory paragraph to what could be a whole essay. Only the first paragraph of the essay is provided because you will be taking a very close look at how it is structured. In the chart below, read the description for each of the five main parts of an introductory paragraph. Then find that part in the paragraph and put the corresponding letter in the first column of the chart.

Having 1:1 Computers in School

Do computers help adults do their work? Do they help people learn? For many years, students have had the opportunity to access computers in school. They could go to the computer lab or the library before or after school, or if they were lucky, their school had a classroom set of computers on a cart that their teacher could check out for the class for a specific activity. While this progress has improved student learning, it is not enough. Studies show that students who attend schools that have a 1:1 computer policy do better academically. This policy enables every student to have a computer assigned to them for their use in and out of school. Also, to prepare students for the world they will enter when they graduate, schools need to prepare students with a strong background in computers science. Last, with the ever-growing selection of learning apps, websites, and software, students who don't have access to them on a regular basis will fall behind in their use of technology. In order to give students the best possible chance at academic success and for them to thrive in the world, schools should adopt a 1:1 computer policy.
