The Daily 5 Gail Boushey, Joan Moser, 2006 Do you love teaching but feel exhausted from the energy you expend cajoling disciplining and directing students on a daily basis Are you questioning the value of busy work but afraid that ceasing from such activities will lead to chaos in the classroom Have you heard the phrase work smarter not harder but don't have a clue how to start If so you'll want to meet The Sisters Gail Boushey and Joan Moser They set about designing a structure that would ensure all children were working at their level of challenge while taking responsibility for their learning and behaviour and that would provide meaningful instruction blocks without extensive preparation time for teachers Thus the Daily Five was born Based on literacy learning and motivation research the Daily Five has been practiced and refined in their own classrooms for 10 years and shared with thousands of teachers throughout the United States The Daily Five is a series of literacy tasks reading to self reading with someone writing word work and listening to reading which students complete daily while the teacher meets with small groups or confers with individuals *15 Easy Lessons That Build Basic Writing Skills in Grades K-2* Mary Rose, 2002 Put your students on the road to success with these easy lessons that build basic writing skills and get kids ready for the standardized tests These hands on activities teach punctuation capitalization sequencing and much more Students learn about periods by mini stop signs at the end of sentences in the morning message identify main idea by brainstorming titles to stories and use graphic organizers to plan their own stories **Getting to the Core of Writing: Essential Lessons for Every Kindergarten Student** Gentry, Richard, 2017-03-01 Inspire students to develop as writers in the kindergarden classroom with these engaging and creative writing lessons This classroom tested resource shows positive results in students writing and simplifies the planning of writing instruction It contains detailed information on how to establish and manage daily Writer's Workshop and includes consistent structured instruction to encourage students to actively participate in the writing process Specific lessons to help students develop the traits of quality writing are also included This resource develops college and career readiness skills and is aligned to today's standards *Lesson Study* Brahm Norwich, Jeff Jones, 2014-02-13 Lesson Study has been developed and used in Japan for over a century and is increasingly used in the Far East USA and now in Europe Lesson Study shows how this powerful model of professional learning has been integrated with the principles of inclusive practice by classroom teachers in the challenging area of teaching pupils in the spectrum from Moderate Learning Difficulties MLD to low attainment The book illustrates how Lesson Study has been practised and explores the optimal conditions in schools for its effective use Essential reading for trainee and practicing teachers with an interest in how professional practice can enhance reflective practice as a means of school improvement and innovation for all pupils **The Learning and Teaching of Reading and Writing** Naomi Flynn, Rhona Stainthorp, 2006-07-11 This book provides a unique description of teacher pupil interaction during the Literacy Hour in good schools It is based on detailed observations in inner city primary schools that were recognised as effective and improving The

analysis is informed by contemporary research into the development and teaching of early literacy The book provides practice based examples of how teachers and schools might adapt their delivery for literacy as they move to greater creativity in their teaching of reading and writing The analysis begins within the classrooms of three expert Key Stage 1 teachers and broadens out in to the wider setting of the schools and their senior management teams An important theme running throughout the book is how the three teachers were able to make exceptional provision for their pupils who were largely second language speakers and from socio economically disadvantaged groups The teachers successful practice grew from their understanding of both early literacy development and planning for individual need The information in this book will enable student teachers recently qualified teachers and teachers interested in enhancing their literacy teaching to develop their practice in a similarly successful way
