

RESEARCH PROPOSAL TEMPLATE

When preparing an application for entry into a research higher degree program it is necessary to supply a clear statement describing the proposed area of research (a research proposal). Consultation with a faculty or school academic staff member in the research area of interest is recommended prior to submission of an application. Liaising with an academic allows you to frame the proposal to align with established disciplines and areas of supervisor capacity.

You must write your own research proposal and reference accordingly. The exception is when your potential supervisor finalises the research proposal with you, for a specific research project that has already been defined. Please visit the University's Academic Integrity pages and policy

General

Length:	From one to three pages is often suitable, depending on the area of research.
Detail:	The following outline may be used as a guide. You should consider each of the areas that will be relevant to your research.
Minimums:	The recommended minimum requirements are identified with an asterisk (*).

Research topic/title*

An initial working title should be provided and should describe the content and direction of your project.
For example: *A template for assisting research students in the development of a research proposal.*

PROJECT DESCRIPTION

Background

What is already known or unknown? Set the scene.

Aims*

What do you want to know, prove, demonstrate, analyse, test, investigate or examine? List your project aims in a logical sequence. For example:
The aim of this project is to:

- Provide an outline of a research proposal
- Enable a prospective student to prepare a research proposal

Methodology*

How do you anticipate you will achieve these aims?
What do you need? (specify any special equipment, software or material) Can you access necessary data or expertise?
Do you require particular resources?
Are there barriers or pitfalls?
Does the project involve human ethics, animal ethics or safety implications?
Is travel or fieldwork required? If so, where to, how long and at what intervals?

Expected outcomes, significance or rationale

Why is it important?
What do you expect it will deliver?
What are the expected outcomes?
Establish the importance of your project by highlighting its originality or why it is worth pursuing. Highlight the benefits, positive expected outcomes or innovative applications of knowledge.

Timetable*

Indicate the timeframe for each broad stage considering literature surveys, data collection, production, modelling, review, analysis, testing, reporting, chapter and thesis writing, and thesis submission date.

Writing Proposal Research Paper:

A Systematic Guide to Write a Research Paper , Guidelines for Preparing the Research Proposal John H. Behling, 1984 This is a revised and updated edition of the UPA 1978 edition A concise monograph the book is designed to facilitate the preparation of research proposals in the social science and human services disciplines Contents Notes Before Beginning the Proposal Research Proposal Outline Guidelines for the Research Proposal Final Tasks After the First Draft of the Research Proposal is Finished Notes on Grantsmanship List of References **Writing A Research Proposal (UTeM Press)** Safiah Sidek ,Massila Kamalrudin, Mustafa Mat Deris ,2019-01-01 ISBN 9789672145790 Authors Safiah Sidek Massila Kamalrudin Mustafa Mat Deris Writing a Research Proposal is the ultimate reference for drafting a clear and convincing research proposal This book provides readers with a full coverage of writing a research proposal from drafting a research title problem statement research objectives literature review and research methodology to planning the research activities and budget Recognizing the different styles of writing proposal for different field of research readers are provided with real examples taken from winning research proposal from three main clusters Engineering Computer Science ICT and Management Social Science Common mistakes made by researchers when drafting research proposals and checklists for the important elements required in each section of the proposal are also highlighted at the end of every chapter The sample of student research proposal in the Appendix helps readers to have a clear picture of the real research proposal The key features of Writing a Research Proposal Guides readers through how to write Executive Summary Abstract Introduction Chapter containing the problem statement research objectives research questions significance and scope of research Literature Review Chapter Research Methodology Chapter and Planning Research Activities and Budget Numerous true examples of the important sections of a research proposal taken from different research domain Checklists of the important elements to be included in the sections chapters of a research proposal and varieties of figures diagrams and dialogue boxes for easy understanding Written by authors experienced in writing research grants and conducting research methodology courses for post graduates this book is a must for researchers as well as research students who need guidance to produce a clear and convincing research proposal **How to Write a Research Paper: A Guide Book for Neophyte Students** Dr. Rashmee Yadav, 2023-02-14 ABOUT THE BOOK The book How to write a Research Paper Guide book for neophyte students composed by three youngsters Dr Rashmee Yadav Dr Brij Vikash Singh and Dr Mithesh Verma is a fantastic effort in this direction They have covered almost all the areas of research paper writing process and how to write a research paper etc The book is based on the research paper writing process The author s main focused on this book How to write a Research Paper Guide Book for the neophyte students This book is helpful to students writing research paper in proper way because plenty of research papers are written every year But in many of them research methodology aspect is not given a considerable attention and because of which the research papers end up in just being endless words containing stories

leading to less or no sense It should be noted that the quality in research articles comes from the extensive planning and in depth research before starting writing them actually This is true even for management research papers writing A research paper analyzes a perspective or argues a point Regardless of the type of research paper the researcher is writing the researcher should present his own thinking backed up by others ideas and information Research paper as a result of the research in the teaching of writing discussions with colleagues and own experiences we have developed a detailed approach to writing research papers and the approach is presented here Instead of focusing on one research paper we have focused on the process of research writing through a series of shorter writing exercises Students begin by having to carefully think about a topic of research and by developing a working idea They then write a series of shorter essays that explore that topic All along the way students are continuing to research and revise their working proposal so that by the end of the term their thinking about their original topic of research has evolved This b Writing a Proposal for Your Dissertation Steven R. Terrell, 2015-11-11 This book has been replaced by Writing a Proposal for Your Dissertation Second Edition ISBN 978 1 4625 5023 4 The Research Writer's Phrase Book Susan Louise Peterson, 1998-08-01 This is a user friendly and extensively tested tool for educational researchers whether students faculty or researchers It focuses on helpful phrases and concepts needed in the writing of research papers articles grant proposals theses and doctoral dissertations **A Practical Guide to Scientific Writing in Chemistry** Andrew Terhemen Tyowua, 2023-03-31 Successful completion of postgraduate studies especially PhD and career advancement in academia strongly depend on the ability to publish scientific papers or books and attract research grants However many chemical scientists find preparing scientific papers and research grant and book proposals difficult partly because of insufficient training in writing and partly because there are few practical books to enable them to learn the art This step by step practical guide is intended mainly for postgraduate students and early career researchers in chemical science and the libraries that serve them but will also be useful to other scientists Key Features Improves the reader s chances of getting their manuscript published in chemistry journals Increases the likelihood of winning research grants in chemistry Takes a lead by the hand approach Contains chapters on the preparation of graphical abstracts and research highlights Uses sketches and other illustration styles to aid mental visualization of concepts Contains practical examples taken from published papers and successful research grant proposals **Writing Scientific Research Articles** Margaret Cargill, Patrick O'Connor, 2021-06-01 Writing Scientific Research Articles The new edition of the popular guide for novice and professional scientists alike providing effective strategies and step by step advice for writing scientific papers for publication For scientists writing a research article for submission to an international peer reviewed journal knowing how to write can be as important as knowing what to write Writing Scientific Research Articles Strategy and Steps provides systematic guidance on writing effective scientific papers with the greatest chance for publication Using clear language this highly practical guide shows scientists how to apply their analysis and synthesis skills to produce a compelling research
