Medical Translation Step by Step Vicent Montalt, Maria González-Davies, 2014-07-16 Statistics on the translation market consistently identify medicine as a major thematic area as far as volume or translation is concerned. Vicent Montalt and Maria Gonzalez Davis both experienced translator trainers at Spanish universities explain the basics of medical translation and ways of teaching and learning how to translate medical texts. *Medical Translation Step by Step* provides a pedagogical approach to medical translation based on learner and learning centred teaching tasks revolving around interaction pair and group work to carry out the tasks and exercises to practice the points covered. These include work on declarative and operative knowledge of both translation and medical texts and favour an approach that takes into account both the process and product of translations. Starting from a broad communication framework the book follows a top down approach to medical translation communication genres texts terms and other units of specialized knowledge. It is positively focused in that it does not insist on error analysis but rather on ways of writing good translations and empowering both students and teachers. The text can be used as a course book for students in face to face learning but also in distance and mixed learning situations. It will also be useful for teachers as a resource book or a core book to be complemented with other materials.

The Role of the Study Director in Nonclinical Studies William J. Brock, Barbara Mounho, Lijie Fu, 2014-05-02 A single source reference with a broad and holistic overview of nonclinical studies this book offers critical training material and describes regulations of nonclinical testing through guidelines models case studies practical examples and worldwide perspectives. The book Provides a complete overview of nonclinical study organization conduct and reporting and describes the roles and responsibilities of a Study Director to manage an effective study. Covers regulatory and scientific concepts including international testing and Good Laboratory Practice GLP compliance with guidelines and animal models. Features a concluding chapter that compiles case studies lessons learned from those that have served as a Study Director for many years. Addresses the entire spectrum of nonclinical testing making it applicable to those in the government laboratories and those actively involved in in all sectors of industry.
