

A woman with her hair in an updo, wearing a white dress and a light-colored shawl, stands with her back to the camera. She is looking out over a landscape of dark green trees and bushes. In the distance, a town is visible in a valley, and mountains rise under a sky with soft, colorful clouds from a sunset or sunrise. The overall mood is contemplative and serene.

Reading a wide range of writers from Blake, Austen and Dickens to Upton Sinclair and Edward Abbey, Heidi Scott explores how our move from a pre-industrial reliance on biomass and elemental energy sources to our current dependence on the fossil fuels of coal, oil and natural gas have fundamentally shaped human identity and culture. The book's Anthropocene perspective reshapes our view of energy history and climate change and **Fuel** looks forward to ways in which we can reimagine our culture away from the fossil fuel paradigm towards a more sustainable energy future driven by renewable elemental energy.

Why Women Read Fiction Helen Taylor, 2019-12-05 Ian McEwan once said: 'When women stop reading the novel, the world will be dead.' This book explains how precious fiction is to contemporary women readers and how they draw on it to tell the stories of their lives. Female readers are key to the future of fiction and as parents, teachers and librarians, the glue for a literate society. Women treasure the chance to read alone but have also gregariously shared reading experiences and memories with mothers, daughters, grandchildren and female friends. For so many, reading novels and short stories enables them to escape and to spread their wings intellectually and emotionally. This book, written by an experienced teacher, scholar of women's writing and literature festival director, draws on over 500 interviews with and questionnaires from women readers and writers. It describes how, where and when British women read fiction and examines why stories and writers influence the way female readers understand and shape their own life stories. Taylor explores why women are the main buyers and readers of fiction, members of book clubs, attendees at literary festivals and organisers of days out to fictional sites and writers' homes. The book analyses the special appeal and changing readership of the genres of romance, erotica and crime. It also illuminates the reasons for British women's abiding love of two favourite novels, *Pride and Prejudice* and *Jane Eyre*. Taylor offers a cornucopia of witty and wise women's voices of both readers themselves and also writers such as Hilary Mantel, Helen Dunmore, Katie Fforde and Sarah Dunant. The book helps us understand why, in Jackie Kay's words, 'our lives are mapped by books.'

Wuthering Heights Emily Brontë, 1858 Published in 1845 Emily Brontë's gothic novel set on the windy moors of Yorkshire is the story of the doomed love between Catherine Earnshaw and her father's adopted son Heathcliff. The book was initially poorly received by many critics who found its dark, tragic story needlessly harsh and disturbing. That opinion has not endured and the only novel Emily Brontë published is now considered to be one of the great classics of English literature.
