

wuthering Heights Essay Questions

1

Analyze the relationship between Lockwood and Heathcliff.

Heathcliff is Lockwood's first introduction to the passionate, terrifying world of *Wuthering Heights*. Early in the novel, Lockwood frequently confuses himself and Heathcliff. At one point, he backtracks on his description of Heathcliff because he "bestow[s] [his] own attributes too readily on him" (5-6). However, Heathcliff's rudeness to Cathy Linton and his servants, along with Ellen's narrative, eventually convince Lockwood to despise Heathcliff like most of the other characters. Nevertheless, the identification between the two characters remains important because it cements Heathcliff's status as one of the novel's protagonists (in the sense that the narrative sometimes seems to favor his perspective).

2

Interpret the novel's dream sequences. Why are they important?

Dreams in *Wuthering Heights* foreshadow future events, but they also reveal important information about the characters' current situations. For example, Lockwood's nightmare about Cathy Linton trying to get into *Wuthering Heights* foreshadows the young girl's eventual reconciliation with the place, via her relationship with Hareton (although this reconciliation comes only after many months of misery, which may be represented by the wounds she gets from the broken glass). However, her fearsome apparition in the dream also reflects her current psychic desperation. Similarly, Catherine's early dream of choosing the moors over heaven foreshadows her eventual burial (and the importance her buried corpse will have for Heathcliff) but also her current preference for worldly pleasure over future happiness.

3

What is the significance of the frame story?

Wuthering Heights is narrated through many layers of mediation. Not only does Ellen Dean narrate most of the story to Lockwood, but occasionally Ellen herself was not present at important events, and only hears about them secondhand—so we hear what happens through two layers of narration. Examples of this include Cathy's explanation of her correspondence with Linton and Cathy's narration of her first visit to *Wuthering Heights*. The fact that the story is so potent despite these multiple layers of mediation speaks to the extraordinary power of love and emotion in this isolated society.

4

Analyze the story's setting. What role does it play in *Wuthering Heights*?

The natural world of the moors is not merely a setting—it also sets the mood of the novel and exerts a noticeable influence on the characters' choices and personalities. The frequently inhospitable weather establishes the conflict between humanity and nature that becomes an important theme; the frequent blizzards and thunderstorms ensure that the characters constantly struggle for survival against the elements. Moreover, the characters at *Wuthering Heights* are frequently characterized as 'wild,' which suggests that their dramatic natural surroundings have somehow seeped into the personalities.

5

Discuss Emily Brontë's portrayal of religion in the novel.

There are distinctly Gothic elements to Brontë's portrayal of Christianity in *Wuthering Heights*. A riot in a church figures prominently in Lockwood's nightmare in Chapter 3, and Joseph's proselytizing

Brontë Richard E. Mezo,2002 A Student's Guide to Wuthering Heights by Emily Brontë is a general introduction to one of the great English novels of the nineteenth century Misunderstood by most critics and commentators upon its publication in 1847 the story of Catherine and Heathcliff and their peers and descendants slowly became recognized as the work of a genius and is now on nearly every list of recommended books for both high school and college students However many

Memory and Latency in Contemporary Anglophone Literature Yvonne Liebermann, 2023-06-06 Up until fairly recently memory used to be mainly considered within the frames of the nation and related mechanisms of group identity Building on mechanisms of inclusion and exclusion this form of memory focused on the event as a central category of meaning making Taking its cue from a number of Anglophone novels this book examines the indeterminate traces of memories in literary texts that are not overtly concerned with memory but still latently informed by the past More concretely it analyzes novels that do not directly address memories and do not focus on the event as a central meaning making category Relegating memory to the realm of the latent that is the not directly graspable dimensions of a text the novels that this book analyses withdraw from overt memory discourses and create new ways of remembering that refigure the temporal tripartite of past present and future and

negotiate what is memorable in the first place Combining the analysis of the novels overall structure with close readings of selected passages this book links latency as a mode of memory with the productive agency of formal literary devices that work both on the micro and macro level activating readers to challenge their learned ways of reading for memory
