Write And Publish A Book

Tucker Max,Zach Obron

Write And Publish A Book:

Now Everyone Can Write & Publish a Book in 3 Days Aammton Alias, 2015-06-22 Everyone dreams of writing a book and having their book published Somehow it seems like such an impossible dream hold on here is a book to help you write your first book in 3 days There is no hype about this It is simply a tested and proven pathway If you don't believe me simply check my other books and their publication dates In this plan I will show you how to figure out what you can write about IMMEDIATELY You can choose to write an eBook and if you want you can convert this into your first printed book with almost zero money down This express book writing and publishing technique involves writing your eBook for Amazon Kindle and then getting it self published into a printed book It is so easy to write a book now these days I keep telling friends family and yes strangers that if you can talk about something you can definitely write about it What are you waiting for **How to Write Your First Book** Isabella G, 2019-02-23 Writing a book is no easy task but trying to do it without guidance is almost impossible as a beginner not to say time consuming You don't need to be a professional writer in order to publish a book as long as you have something to say that's worth saying then I say go for it With this book on how to write books I will help you with some techniques that have helped me write and publish over 10 books in one year Everything I wish I knew before starting writing and publishing my own books will be included in full detail in order to help you out as much as I can I'm sure that you're a busy individual who values his or her time therefore this book is focused on teaching you as much helpful information as possible in the least amount of pages I'm going to cut out the fluff and leave as much juicy meat for you to consume fast This way you can start writing your own book this month without wasting any time trying to figure out how to do it If you want a 100 000 word book on how to write and publish then this is not for you but if you're into efficiency and getting things done then you've come to the right place Throughout the book there will be tips and techniques I've used myself and seen other successful writers use themselves Keep in mind that what works for me might not work for you and vice versa I can give you all the tools you need but nothing will work unless you do It might feel frustrating at first because you'll want to try many different styles but this book and what I'm planning to teach you goes beyond that and it is probably going to be more valuable than just learning how to write a book I will teach you how to get to know yourself Some of the lessons included in this book are Where to start How to write a book Where to write it What to do before publishing How to publish your book How to publish books as a business And much more **Self-Publishing Guide for Independent Authors** Anthony Ekanem, 2016-10-17 If you have always dreamed of being a writer you can live your dreams by writing your own book and then self publishing Self publishing is the way that many writers today are choosing to get their book out to the public Self publishing today is not the same as it was years ago when you had to spend thousands of dollars to publish your book You can self publish a book for as little as 500 when you choose a good self publishing service online The first thing that you need to do is to know your genre The one rule of writing is that you should write about what you know If you

have a specific genre that you read chances are that this is what you will want to write about Take a look at your interests and the type of books that you read before you decide on your genre Your book should never be just about making money it should be about something for which you have a passion There are many different genres available in both fiction and non fiction Before you start your book have a plan of what it will be about and the genre it will fill You need to have a specific genre when you are writing a book so that you will be able to market it properly Some books will cross genre lines such as paranormal and romance Some books will fit neatly into a specific genre It should be clear what the book is about to the reader so that they will be interested in what you have written enough to buy the book Most readers have types of books that they like to read and tend to stick to one or two genres If you are writing a non fiction book there are also genres You need to make your book stand out among the rest in a way that will set it apart from other books of the same genre

14 Steps to Self-Publishing a Book Mike Kowis,2017-02-15 How do I self publish my new book And how much will it cost Have you ever asked yourself these questions If so this is the perfect book for you In this concise and practical self publishing guide for aspiring authors Mike Kowis Esq shares his 14 step process to publishing attractive well written and effectively marketed books Don t worry it s MUCH easier than you think In this step by step guide you will learn Everything you need to know about self publishing including advice for editing designing distributing and marketing your book How much this process costs plus The surprising lessons Mike learned from self publishing his award winning debut book This handy book also includes a checklist of the entire 14 step process so you won t miss a single thing MIKE KOWIS ESQ is a corporate tax attorney college instructor and award winning author During the two month process of self publishing his first book Engaging College Students A Fun and Edgy Guide for Professors Mike took careful notes on each step and later decided to write this book to help other authors who want to self publish Mike holds a bachelor s degree and two law degrees including an advanced law degree from Georgetown University Law Center He lives in Texas with his beautiful wife Jessica their two rambunctious children and two noisy but sweet dogs You can find more information at www.engagingcollegestudents.com self publishing guide
