Admissions , Perspectives on the IB Diploma Core Jeff Thompson, Judith Fabian, Mary Hayden, 2019-10-15 The Diploma Programme was the first programme to be devised and implemented by the International Baccalaureate over fifty years ago. Since its creation the curriculum upon which the programme is based has been continuously developed to take into account the rapidly changing needs of students, schools, higher education and employment contexts. For much of that time the programme has included three essential components that must be undertaken by students who wish to graduate with the Diploma: Theory of Knowledge, Extended Essay and Creativity Activity Service (CAS). Taken together over time these have come to be regarded as a core of the Diploma Programme although they were not described as such at the outset. This edited collection is intended to provide input into the current review of the IB Diploma Programme. It comprises contributions from experienced authors, researchers and practitioners who were invited to reflect upon the nature of the core as it exists at present, to raise issues in relation to the future development of the core and to share experience in the learning and teaching of the core components across a wide range of schools in both national and international systems of education. Questions concerning the concept of the core as a whole, developing students as internationally minded thinkers and the challenges of bringing coherence to the core in establishing a holistic approach to the curriculum underpin the individual chapters throughout. Contributors: Edward Allanson, Tom Brodie, John Cannings, Christian Chiarenza, Mary Donnellan, Jenny Gillett, Robin Julian, Julian Kitching, Justin Laleh, Ann Lautrette, James MacDonald, Shona McIntosh, Heather Michael, Paul Regan, John Royce, John Sprague, George Walker. *Teaching Chinese Language in the International School Context* Jia-Fei Hong, Chung-Mou Si, 2023-11-29 This book explores the learning and teaching of K-12 Chinese language in international schools. The authors of this book are scholars from teaching training institutions and universities as well as professional frontline teachers. With a combination of the works and insights from both perspectives of theory and practice, the book presents how theories of teaching can be operated in classroom to improve the effectiveness of language teaching. It covers curriculum setting, design of teaching materials, teaching principles, methods, strategies and evaluation. The book also discusses issues and concepts such as concept-driven learning, identity change and recognition of L1 and L2 Chinese teacher pinyin teaching, Chinese character teaching, evaluation for learning improvement and integration of South Asian non-Chinese speaking students into local schools. It emphasizes empirical action research methods. This is a highly informative and carefully presented book providing high value insights to scholars from university and teacher training institutions and teachers from kindergartens, primary and secondary schools around the world. *Pedagogy in a New Tonality* Peter Gouzouasis, 2012-01-01 This is a book for teachers by teachers from elementary school to university level classrooms. It is about the use of creative instructional strategies in K-12 classroom settings and the transformations the teachers made in their journeys from being traditional practitioners to becoming pedagogical in their approaches to teaching and learning across the curriculum. Over twenty teachers conducted research in their classrooms on the implementation of creative

strategies tactics graphics organizers and visual journals in teaching and learning They have written their inquiries in a narrative style informed by various forms of arts based educational research Their research is approachable and usable by other teachers who are interested in becoming reflective reflexive practitioners Many of the strategies tactics and graphics organizers are described by Barrie Bennett in his widely used textbook *Beyond Monet The Artful Science of Instructional Intelligence* However through their journeys of becoming teacher learner researchers many discovered numerous creative variations of Bennett s work as it was implemented in their classrooms While there are many professional books that provide ideas on collaborative learning and creative teaching approaches there is very little published research on the efficacy of these concepts in the K 12 classroom These inquiries provide practical insights into how inspired teachers can conduct research on improving their own practice as well as on greatly improving their students learning Thus this book has widespread interest for teachers and administrators who seek to implement systemic changes in the ways that teachers teach and children learn in the 21st century

The International Baccalaureate Diploma Program and the School Library Anthony Tilke,2011-03-11 This book a blend of practice and theory shows how the school library can contribute to the success of the International Baccalaureate Diploma Program Written for librarians in schools that are applying to offer the program as well as those who already work with it The International Baccalaureate Diploma Program and the School Library Inquiry Based Education provides information and strategies specifically relating libraries to the IBDP The guide includes information about the IBDP ranging from the subject matrix to unique aspects of the program such as the Theory of Knowledge course the Extended Essay requirement and the Learner Profile The book also discusses other important features of IB programs such as internationalism and academic honesty Finally it blends theory and practice by providing details and findings from the only two year research study to follow students and teachers through the IBDP The study demonstrates the role of the school library in the program showing how both students and teachers used and valued it Each chapter concludes with a series of points or strategies for the librarian to reflect upon and or use as the basis of action
