

What Are Chemical Equations?

- Chemical equations use chemical formulas and other symbols instead of words to summarize a reaction.

Compare to reading a book (L→R) on the story of the previous and post relationships.

Writing Balanced Chemical Equations From Words:

Interactive School Science 10 , Chemistry in Quantitative Language Christopher O. Oriakhi, 2021 Chemistry in Quantitative Language is an invaluable guide to solving chemical equations and calculations. It provides readers with intuitive and systematic strategies to carry out the many kinds of calculations they will meet in general chemistry. This book provides innovative intuitive and systematic strategies to tackle any type of calculations encountered in chemistry. Each chapter introduces the basic theories and concepts of a particular topic focusing on relevant equations. Worked examples illuminate each type of problem with carefully explained step by step solutions. Since chemistry problem can be presented in a number of ways the examples include several versions of each question. To help students understand and retain the procedures the solutions discuss not only what steps to carry out to reach solutions but why. The second edition contains additional problems at the end of each chapter with varying degrees of difficulty and many of the original examples have been revised. Book jacket
