

Writing a Formal Research Paper in the Social Sciences

This handout provides guidelines for writing a formal research paper in the social sciences. Although it is a type of *research paper*, the process is not the same as writing a research paper for an English or history class. In fact, a formal research paper is much more similar to a formal lab report for a chemistry or biology class. The “research” in the title refers to conducted scientific research rather than the gathering of information. For psychology classes, one will typically write about a behavior observation, a survey, or an experiment. Sociology (and occasionally psychology) includes interviews as well. The usual format for a social science research paper is APA; however, always follow the instructor’s guidelines on formatting.

General Tips

- ❖ **Be concise.** Scientific writing often requires a lot of information, and it is important to relay this information in a detailed but straightforward manner. The research should be presented as clearly as possible, without excess wordiness or repetition. Always stay focused and on-point.
- ❖ **Write in the third person.** Avoid using the first person, such as “I” or “we,” when discussing research procedure. For example, rather than writing, “I surveyed 35 participants,” it is better to write, “The survey was administered to 35 participants.” The focus should stay on the research, and using the first person can make it appear more like a personal narrative. This type of writing may seem awkward at first, so try to pay close attention to the wording throughout the paper.
- ❖ **Use correct verb tenses.** Students are often unsure of whether to use the past or present verb tense when writing about research. There are a couple of general rules to follow regarding verb tense usage:
 - Since the study has already been conducted, discuss it in the *past tense*. For instance, one could say, “It was predicted that...” or “The observation was conducted...”
 - Since the theories and current research paper still exist, discuss them in the *present tense*. For example, one could say, “research shows that...” or “according to Bandura, children are more likely to show aggression when...”

Vision, Rhetoric, and Social Action in the Composition Classroom Kristie S. Fleckenstein, 2009-11-16 In this innovative volume Kristie S Fleckenstein explores how the intersection of vision rhetoric and writing pedagogy in the classroom can help students become compassionate citizens who participate in the world as they become more critically aware of the world Fleckenstein argues that all social action behavior designed to increase human dignity value and quality of life depends on a person's repertoire of visual and rhetorical habits To develop this repertoire in students the author advocates the incorporation of visual habits or ways of seeing into a language based pedagogical approach in the writing classroom According to Fleckenstein interweaving the visual and rhetorical in composition pedagogy enables students to more readily perceive the need for change while arming them with the abilities

and desire to enact it The author addresses social action from the perspective of three visual habits spectacle which fosters disengagement animation or fusing body with meaning and antinomy which invites the invention of new realities Fleckenstein then examines the ways in which particular visual habits interact with rhetorical habits and with classroom methods resulting in the emergence of various forms of social action To enhance the understanding of the concepts she discusses the author represents the intertwining relationships of vision rhetoric and writing pedagogy graphically as what she calls symbiotic knots In tracing the modes of social action privileged by a visual habit and a teacher s pedagogical choices Fleckenstein attends particularly to the experiences of students who have been traditionally barred from participation in the public sphere because of gender race or class The book culminates in a call for visually and rhetorically robust writing pedagogies In *Vision Rhetoric and Social Action in the Composition Classroom* Fleckenstein combines classic methods of rhetorical teaching with fresh perspectives to provide a unique guide for initiating important improvements in teaching social action The result is a remarkable volume that empowers teachers to best inspire students to take part in their world at that most crucial moment when they are discovering it
