Written on the Body Jeanette Winterson, 2013-04-17 The most beguilingly seductive novel to date from the author of *The Passion and Sexing the Cherry* Winterson chronicles the consuming affair between the narrator who is given neither name nor gender and the beloved a complex and confused married woman At once a love story and a philosophical meditation New York Times Book Review

Written on the Body Jeanette Winterson, 1993-09-01 Body Image and Identity in Jeanette Winterson's "Written on the Body" Britta Sonnenberg, 2004-06-18 Seminar paper from the year 2003 in the subject English Language and Literature Studies Literature grade 2.0 B University of Cologne English Seminar course Hauptseminar Writing with a Difference language English abstract Jeanette Winterson's *Written on the Body* 1990 draws a realistic picture of twentieth century England but in contrast to the majority of post modern works that display chaos and displacement often accompanied by apocalyptic future visions *Written on the Body* sets love and trust against individualism and control The simple plot of the story as well as the overload of metaphors and imagery have misled some critics into judging the novel as trivial and romantic but a closer look clearly does not hold that interpretation The use of imagery and fantastic elements is much too pointed to be read as mere poetic illustration of romantic feelings In fact what seems trivial and naive at the surface appears highly thought through at a deeper look *Written on the Body* is a notable comment on society's perception of gender and identity The ostentatious playing with cultural conventions and assumptions related to sexual relationships and the female body constitutes a sociocritical statement which is artistically wrapped up in a melodramatic love affair It challenges the conventional binary gender system although at the same time it seems itself trapped in this system In this paper I want to explore the representation of body gender and identity in *Written on the Body*

Written on the Body by Jeanette Winterson in the Context of Nomadology Maria Goltsova, 2006

The Measure of Love Lost Stephanie K.

Wheeler, 2010 Jeanette Winterson's novel *Written on the Body* asks what it means to express love not through language but through the body where it is felt challenging the boundaries placed between body and language Using Winterson's novel and Roland Barthes's *A Lover's Discourse* as points of inquiry this thesis examines conceptions of love based on heteronormative and romanticized visions of present and healthy bodies This thesis asks how a body that is diseased and dying can express an emotion that is predicated on these very notions of presence absence and health The narrator of the novel sees love as a scripted story that once adhered to determines the successful experience of love Louise's cancer threatens these scripts of

love as it destroys the narrator's conception of both love and Louise. Despite the fact that Louise is absent and dying, the narrator begins to write a new story that will allow him/her to have a perfect relationship with Louise so that s/he can reconcile the contradictions of the scripts that the relationship exposed. Using Slavoj Žižek's *Melancholy and the Act* and Richard Stamelman's *Lost Beyond Telling* as frameworks of mourning and melancholy, the narrator's melancholy over a lost presence thus emerges as a way that allows him/her to create a perfect love story. To make Louise appear perfect in this perfect love story, the narrator manipulates the language of disease that reconstructs Louise's physical absence as a textual presence. The discourse surrounding Louise thus begins to operate out of the desire to compensate and supplement what is missing in Louise's case; the narrator is supplementing her with a normal, healthy body. Looking in the shadows of the narrator's memories, *Written on the Body* emerges as not only an account of the narrator's love story but also an account of Louise's story, a story of a body that refuses to be written on and demands to be heard. Winterson demonstrates how the body is always in the process of creating knowledge and meaning that can only be obtained by questioning what is normal, both for the body and for the scripts we all adhere to.
