Landscapes of Collectivity in the Life Sciences Snait B. Gissis, Ehud Lamm, Ayelet Shavit, 2018-01-12 Broad perspective on collectivity in the life sciences from microorganisms to human consensus and the theoretical and empirical opportunities and challenges Many researchers and scholars in the life sciences have become increasingly critical of the traditional methodological focus on the individual This volume counters such methodological individualism by exploring recent and influential work in the life sciences that utilizes notions of collectivity sociality rich interactions and emergent phenomena as essential explanatory tools to handle numerous persistent scientific questions in the life sciences The contributors consider case studies of collectivity that range from microorganisms to human consensus discussing theoretical and empirical challenges and the innovative methods and solutions scientists have devised The contributors offer historical philosophical and biological perspectives on collectivity and describe collective phenomena seen in insects the immune system communication and human collectivity with examples ranging from cooperative transport in the longhorn crazy ant to the evolution of autobiographical memory They examine ways of explaining collectivity including case studies and modeling approaches and explore collectivity's

explanatory power They present a comprehensive look at a specific case of collectivity the Holobiont notion the idea of a multi species collective a host and diverse microorganisms and the hologenome theory which posits that the holobiont and its hologenome are a unit of adaption The volume concludes with reflections on the work of the late physicist Eshel Ben Jacob pioneer in the study of collective phenomena in living systems Contributors Oren Bader John Beatty Dinah R Davison Daniel Dor Ofer Feinerman Raghavendra Gadagkar Scott F Gilbert Snait B Gissis Deborah M Gordon James Griesemer Zachariah I Grochau Wright Erik R Hanschen Eva Jablonka Mohit Kumar Jolly Anat Kolumbus Ehud Lamm Herbert Levine Arnon Levy Xue Fei Li Elisabeth A Lloyd Yael Lubin Eva Maria Luef Ehud Meron Richard E Michod Samir Okasha Simone Pika Joan Roughgarden Eugene Rosenberg Ayelet Shavit Yael Silver Alfred I Tauber Ilana Zilber Rosenberg Governing Digitally Integrated Genetic Resources, Data, and Literature Jerome H. Reichman, Paul F. Uhler, Tom Dedeurwaerdere, 2016-05-19 The free exchange of microbial genetic information is an established public good facilitating research on medicines agriculture and climate change However over the past quarter century access to genetic resources has been hindered by intellectual property claims from developed countries under the World Trade Organization s TRIPS Agreement 1994 and by claims of sovereign rights from developing countries under the Convention on Biological Diversity CBD 1992 In this volume the authors examine the scientific community s responses to these obstacles and advise policymakers on how to harness provisions of the Nagoya Protocol 2010 that allow multilateral measures to support research By pooling microbial materials data and literature in a carefully designed transnational e infrastructure the scientific community can facilitate access to essential research assets while simultaneously reinforcing the open access movement The original empirical surveys of responses to the CBD included here provide a valuable addition to the literature on governing scientific knowledge commons

Psychosocial Risks and Health at Work from a Gender Perspective: A Current Overview Eva Cifre, María Vera, 2019-10-14 The Routledge Handbook of the Political Economy of Science David Tyfield, Rebecca Lave, Samuel Randalls, Charles Thorpe, 2017-04-28 The political economy of research and innovation R I is one of the central issues of the early twenty first century Science and innovation are increasingly tasked with driving and reshaping a troubled global economy while also tackling multiple overlapping global challenges such as climate change or food security global pandemics or energy security But responding to these demands is made more complicated because R I themselves are changing Today new global patterns of R I are transforming the very structures institutions and processes of science and

innovation and with it their claims about desirable futures Our understanding of R I needs to change accordingly Responding to this new urgency and uncertainty this handbook presents a pioneering selection of the growing body of literature that has emerged in recent years at the intersection of science and technology studies and political economy The central task for this research has been to expose important but consequential misconceptions about the political economy of R I and to build more insightful approaches This volume therefore explores the complex interrelations between R I both in general and in specific fields and political economies across a number of key dimensions from health to environment and universities to the military The Routledge Handbook of the Political Economy of Science offers a unique collection of texts across a range of issues in this burgeoning and important field from a global selection of top scholars The handbook is essential reading for students interested in the political economy of science technology and innovation It also presents succinct and insightful summaries of the state of the art for more advanced scholars

Learning That Sticks Bryan Goodwin,Tonia Gibson,Kristin

Rouleau,2020-06-05 In far too many classrooms the emphasis is on instructional strategies that teachers employ rather than on what students should be doing or thinking about as part of their learning What s more students minds are something of a mysterious black box for most teachers so when learning breaks down they re not sure what went wrong or what to do differently to help students learn It doesn t have to be this way Learning That Sticks helps you look inside that black box Bryan Goodwin and his coauthors unpack the cognitive science underlying research supported learning strategies so you can sequence them into experiences that challenge inspire and engage your students As a result you ll learn to teach with more intentionality understanding not just what to do but also when and why to do it By way of an easy to use six phase model of learning this book Analyzes how the brain reacts to stores and retrieves new information Helps you zoom out to understand the process of learning from beginning to end Helps you zoom in to see what s going on in students minds during each phase Learning may be complicated but learning about learning doesn t have to be And to that end Learning That Sticks helps shine a light into all the black boxes in your classroom and make your practice the most powerful it can be This product is a copublication of ASCD and McREL

Taiwan's Social Movements under Ma Ying-jeou Dafydd Fell,2017-02-17

In the spring of 2014 the Sunflower Movement s three week occupation of the Legislative Yuan brought Taiwan back to international media attention It was the culmination of a series of social movements that had been growing in strength since 2008 and have become even more salient since the spring of 2014 Social movements in Taiwan have emerged as a powerful new actor that needs to be understood alongside those players that have dominated the literature such as political parties local factions Taishang China and the United States This book offers readers an introduction to the development of these social movements in Taiwan by examining a number of important movement case studies that focus on the post 2008 period The return of the Kuomintang KMT to power radically changed the political environment for Taiwan s civil society and so the book considers how social activists responded to this new political opportunity structure The case chapters are based on

extensive fieldwork and are written by authors from a variety of disciplinary backgrounds and methodological approaches in some cases authors combine being both academics and activists themselves Together the chapters focus on a number of core issues providing the book with four key aims Firstly it investigates the roots of the movements and considers how to best explain their emergence Secondly it examines the development trajectories of these movements Thirdly it looks at the best way to explain their impact and development patterns and finally it assesses their overall impact questioning whether they can be regarded as successes or failures Covering a unique range of social movement cases the book will be of interest to students and researchers interested in Taiwanese society and politics as well as social movements and civil society

Risk Regulation in the Internal Market Maria Weimer, 2019-03-13 This book offers a topical inquiry into the legal and political limits of EU regulation in the field of risk and new technologies surrounded by techno scientific complexity uncertainty and societal contestation It uses agricultural biotechnology as a paradigmatic example to illustrate the complex intertwinement between environmental public health economic and social concerns in risk regulation Weimer analyses the drawbacks of the EU approach to agricultural biotechnology showing that its reductionism i e the narrow understanding of GMO risks as well as the exclusion of broader societal concerns related to environmental and social sustainability has undermined both the legitimacy and effectiveness of EU regulation in this area Resistance to this approach however has also triggered legal innovations prompting us to re think EU internal market law including the way in which it manages the tensions between unity and diversity and between social and economic concerns This text offers fresh and original insights into how far the EU can go in harmonizing regulatory approaches to risk At the same time it proposes new ways of re thinking EU risk regulation to make it more responsive to different perspectives on risk and technology A unique feature of this book is that it contributes to various strains of scholarship including risk regulation internal market law public administration and studies of governance and regulation as well as connecting these themes to broader debates about the legitimacy of European integration and new ways of differentiated integration As a result it assists in re imagining the EU internal market and its regulation as a site of diversity
