Last Stand Michael Punke,2020-06-09 The dramatic history of the extermination and resurrection of the American buffalo by 1 bestselling author of The Revenant

Michael Punke's *The Last Stand* tells the epic story of the American West through the lens of the American bison and the man who saved these icons of the Western landscape. Over the last three decades of the nineteenth century an American buffalo herd once numbering 30 million animals was reduced to twelve. It was the era of Manifest Destiny, a Gilded Age that treated the West as nothing more than a treasure chest of resources to be dug up or shot down. The buffalo in this world was a commodity hounded by legions of swashbucklers and unemployed veterans seeking to make their fortunes. Supporting these hide hunters even buying their ammunition was the U.S. Army, which considered the eradication of the buffalo essential to victory in its ongoing war on Native Americans. Into that maelstrom rode young George Bird Grinnell. A scientist and a journalist, a hunter and a conservationist, Grinnell would lead the battle to save the buffalo from extinction. Fighting in the pages of magazines, in Washington's halls of power and in the frozen valleys of Yellowstone, Grinnell and his allies sought to preserve an icon from the grinding appetite of Robber Baron America. Grinnell shared his adventures with some of the greatest and most infamous characters of the American West, from John James Audubon and Buffalo Bill to George Armstrong Custer and Theodore Roosevelt. Grinnell's friend and ally, a strikingly contemporary story, the saga of Grinnell and the buffalo was the first national battle over the environment. *Last Stand* is the story of the death of the old West and the birth of the new, as well as an examination of how the West was really won through the birth of the conservation movement. It is also the definitive history of the American buffalo, written by a master storyteller of the West. *The Woman Who Knew What She Wanted* William Coles, 2013-05-15. A young man falls for a woman twice his age, but can the age gap ever truly be bridged?

Wild Things, Wild Places Jane Alexander, 2017-09-05. In *Wild Things, Wild Places*, actress, author, and conservationist Jane Alexander offers a moving first-hand assessment of what is being done to help the planet's most at-risk animals. In short reflections on her travels to some of the most remote and forbidding areas, she describes the ways in which human incursions into the natural world are destroying wildlife around the globe. With a clear eye and a keen grasp of the issues, Alexander highlights the remarkable work being done in the fields of science and conservation and introduces readers to the field biologists, zoologists, environmentalists, and conservationists, the prophets in the wilderness who have committed themselves to this essential effort. Inspiring and enlightening, *Wild Things, Wild Places* is a deeply personal look at the changing face of wildlife on planet Earth. *Tough Titties* Laura Belgray, 2023-06-13. NATIONAL BESTSELLER.
