

A close-up, high-contrast photograph of a person's face, focusing on the eye and mouth. The eye is large and detailed, with a dark iris and visible eyelashes. The mouth is slightly open, showing red lips. The skin has a textured, almost cracked appearance, particularly around the eye and mouth. The overall tone is dark and dramatic.

WAR Sebastian Junger, 2010-05-11 In his breakout bestseller *The Perfect Storm* Sebastian Junger created a wild ride that brilliantly captures the awesome power of the raging sea and the often futile attempts of humans to withstand it Los Angeles Times Book Review Now Junger turns his brilliant and empathetic eye to the reality of combat the fear the honor and the trust among men in an extreme situation whose survival depends on their absolute commitment to one another His on the ground account follows a single platoon through a 15 month tour of duty in the most dangerous outpost in Afghanistan s Korengal Valley Through the experiences of these young men at war he shows what it means to fight to serve and to face down mortal danger on a daily basis

War 3M Company, 2014-07-02 In his breakout bestseller *The Perfect Storm* Sebastian Junger created a wild ride that brilliantly captures the awesome power of the raging sea and the often futile attempts of humans to withstand it Los Angeles Times Book Review Now Junger turns his brilliant and empathetic eye to the reality of combat the fear the honor and the trust among men in an extreme situation whose survival depends on their absolute commitment to one another His on the ground account follows a single platoon through a 15 month tour of duty in the most dangerous outpost in Afghanistan s Korengal Valley Through the experiences of these young men at war he shows what it means to fight to serve and to face down mortal danger on a daily basis

Tribe Sebastian Junger, 2016-05-24 We have a strong instinct to belong to small groups defined by clear purpose and understanding tribes This tribal connection has been largely lost in modern society but regaining it may be the key to our psychological survival Decades before the American Revolution Benjamin Franklin lamented that English settlers were constantly fleeing over to the Indians but Indians almost never did the same Tribal society has been exerting an almost gravitational pull on Westerners for hundreds of years and the reason lies deep in our evolutionary past as a communal species The most recent example of that attraction is combat veterans who come home to find themselves missing the incredibly intimate bonds of platoon life The loss of closeness that comes at the end of deployment may explain the high rates of post traumatic stress disorder suffered by military veterans today Combining history psychology and anthropology *Tribe* explores what we can learn from tribal societies about loyalty belonging and the eternal human quest for meaning It explains the irony that for many veterans as well as civilians war feels better than peace adversity can turn out to be a blessing and disasters are sometimes remembered more fondly than weddings or tropical vacations *Tribe* explains why we are stronger when we come together and how that can be achieved even in today s divided world

Weirding the War Stephen Berry, 2011-10-01 It is well that war is so terrible Robert E Lee reportedly said or we would grow too fond of it The essays collected here make the case that we have grown too fond of it and therefore we must make the war terrible again Taking a freakonomics approach to Civil War studies each contributor uses a seemingly unusual story incident or phenomenon to cast new light on the nature of the war itself Collectively the essays remind us that war is always about damage even at its most heroic and even when certain people and

things deserve to be damaged Here then is not only the grandness of the Civil War but its more than occasional littleness Here are those who profited by the war and those who lost by it and not just those who lost all save their honor but those who lost their honor too Here are the cowards the coxcombs the belles the deserters and the scavengers who hung back and so survived even thrived Here are dark topics like torture hunger and amputation Here in short is war **The Justification of War and International Order** Lothar Brock,Hendrik Simon,2021-02-11 The history of war is also a history of its justification The contributions to this book argue that the justification of war rarely happens as empty propaganda While it is directed at mobilizing support and reducing resistance it is not purely instrumental Rather the justification of force is part of an incessant struggle over what is to count as justifiable behaviour in a given historical constellation of power interests and norms This way the justification of specific wars interacts with international order as a normative frame of reference for dealing with conflict The justification of war shapes this order and is being shaped by it As the justification of specific wars entails a critique of war in general the use of force in international relations has always been accompanied by political and scholarly discourses on its appropriateness In much of the pertinent literature the dominating focus is on theoretical or conceptual debates as a mirror of how international normative orders evolve In contrast the focus of the present volume is on theory and political practice as sources for the re and de construction of the way in which the justification of war and international order interact With contributions from international law history and international relations and from Western and non Western perspectives this book offers a unique collection of papers exploring the continuities and changes in war discourses as they respond to and shape normative orders from early modern times to the present *Wars and the World* Tim Kucharzewski,2024-06-19 This book offers a descriptive analysis of the Soviet Russian wars in Afghanistan Chechnya and Georgia as well as an in depth exploration of the ways in which these wars are framed in the collective consciousness created by global popular culture Russian and Western modalities of remembrance have been and remain engaged in a world war that takes place not exclusively but intensively on the level of popular culture The action reaction dynamic confrontational narratives and othering between the two camps never ceased The Cold War in many ways and contrary to the views of many others who hoped for the end of history never really ended **Freedom** Sebastian Junger,2021-05-18 A profound rumination on the concept of freedom from the New York Times bestselling author of *Tribe* Throughout history humans have been driven by the quest for two cherished ideals community and freedom The two don t coexist easily We value individuality and self reliance yet are utterly dependent on community for our most basic needs In this intricately crafted and thought provoking book Sebastian Junger examines the tension that lies at the heart of what it means to be human For much of a year Junger and three friends a conflict photographer and two Afghan War vets walked the railroad lines of the East Coast It was an experiment in personal autonomy but also in interdependence Dodging railroad cops sleeping under bridges cooking over fires and drinking from creeks and rivers the four men forged a unique reliance on one another In *Freedom* Junger weaves

his account of this journey together with primatology and boxing strategy the history of labor strikes and Apache raiders the role of women in resistance movements and the brutal reality of life on the Pennsylvania frontier Written in exquisite razor sharp prose the result is a powerful examination of the primary desire that defines us **The Hell of War Comes Home** Owen W. Gilman Jr.,2018-02-09 Owen W Gilman Jr stresses the US experience of war in the twenty first century and argues that wherever and whenever there is war there will be imaginative responses to it especially the recent wars in Afghanistan and Iraq Since the trauma of September 11 the experience of Americans at war has been rendered honestly and fully in a wide range of texts creative nonfiction and journalism film poetry and fiction These responses Gilman contends have packed a lot of power and measure up even to World War II s literature and film Like few other books Gilman s volume studies these new texts among them Kevin Powers s debut novel *The Yellow Birds* and Phil Klay s short stories *Redeployment* along with the films *The Hurt Locker* *American Sniper* and Billy Lynn s *Long Halftime Walk* For perspective Gilman also looks at some touchstones from the Vietnam War Compared to a few of the big Vietnam books and films this new material has mostly been read and watched by small audiences and generated less discussion Gilman exposes the circumstances in American culture currently preventing literature and film of our recent wars from making a significant impact He contends that Americans inclination to demand distraction limits learning from these compelling responses to war in the past decade According to Gilman where there should be clarity and depth of knowledge we instead face misunderstanding and the anguish endured by veterans betrayed by war and our lack of understanding Performance, Politics, and the War on Terror Sara Brady,2012-01-17 Using a performance studies lens this book is a study of performance in the post 9 11 context of the so called war on terror It analyzes conventional theatre political protest performance art and other sites of performance to unpack the ways in which meaning has been made in the contemporary global sociopolitical environment *The American War in Afghanistan* Carter Malkasian,2021 A history of the war in Afghanistan between 2001 and 2020 The work follows a narrative format to go through the 2001 US invasion the state building of 2002 2005 the Taliban offensive of 2006 the US surge of 2009 2011 the subsequent drawdown and the peace talks of 2019 2020 Writing Wars David F. Eisler,2022-12-14 Choice Outstanding Academic Title 2024 Senators Bob and Elizabeth Dole Biennial Award for Distinguished Book in Veterans Studies winner Who writes novels about war For nearly a century after World War I the answer was simple soldiers who had been there The assumption that a person must have experienced war in the flesh in order to write about it in fiction was taken for granted by writers reviewers critics and even scholars Contemporary American fiction tells a different story Less than half of the authors of contemporary war novels are veterans And that s hardly the only change Today s war novelists focus on the psychological and moral challenges of soldiers coming home rather than the physical danger of combat overseas They also imagine the consequences of the wars from non American perspectives in a way that defies the genre s conventions To understand why these changes have occurred David Eisler argues that we must go back nearly fifty years to the political

decision to abolish the draft The ramifications rippled into the field of cultural production transforming the foundational characteristics authorship content and form of the American war fiction genre War & Homecoming Travis L. Martin,2022-07-26 In War Homecoming Veteran Identity and the Post 9 11 Generation Travis L Martin explores how a new generation of veterans is redefining what it means to come home More than 2 7 million veterans served in Iraq and Afghanistan Their homecomings didn t include parades or national celebrations Instead when the last US troops left Afghanistan American veterans raised millions of dollars for the evacuation of Afghan refugees especially those who d served alongside them This brand of selflessness is one reason civilians regard veterans with reverence and pride The phrase thank you for your service is ubiquitous Yet one in ten post 9 11 veterans struggles with substance abuse Fifteen to twenty veterans die by suicide every day Veterans aged eighteen to thirty four die at the highest rates leading advocates to focus on concepts like moral injury and collective belonging when addressing psychic wounds Martin argues that many veterans struggle due to decades of stereotyping and a lack of healthy models of veteran identity In the American unconscious veterans are treated as either the superficially praised hero or the victimized wounded warrior forever defined by past accomplishments They are often appropriated as symbols in competing narratives of national identity War Homecoming critically examines representations of veterans in patriotic rhetoric popular media literature and the lives of those who served From this analysis a new veteran identity emerges veterans as storytellers who reject stereotypes claim their symbolic authority and define themselves through literature art and service Their dynamic approach to life after military service allows for continued growth agency individuality and inspiring examples of resilience for others Ending War Chiara De Franco,Anders Engberg-Pedersen,Martin Mennecke,2021-11-29 Ending War A Dialogue across Disciplines examines how wars end from a multidisciplinary perspective and includes enquiries into the politics of war the laws of war and the military and intellectual history of war In recent years the changes in the character of contemporary warfare have created uncertainties across different disciplines about how to identify and conceptualise the end of war A whole constellation of questions arises from such uncertainties How do philosophers define ethical responsibilities in bello and post bellum if the boundary between war and peace is ever so blurred How do strategists define their objectives if the teleology of action becomes uncertain How do historians bracket the known endings of war and delve into the arguments that preceded them Which answers can international law provide for the ending of wars and which challenges remain or have recently arisen This volume addresses these questions and enables both an understanding of how the end as a concept informs the understanding of war in international relations in international law and in history as well as a reconsideration of the nature of scientific method in the field of war studies as such The chapters in this book were originally published as a special issue of The Journal of Strategic Studies **Understanding War** Christian P. Potholm,2016-08-03 The third book in Professor Christian Potholm s war trilogy which includes Winning at War and War Wisdom Understanding War provides a most workable bibliography dealing

with the vast literature on war and warfare As such it provides insights into over 3000 works on this overwhelmingly extensive material Understanding War is thus the most comprehensive annotated bibliography available today Moreover by dividing war material into eighteen overarching themes of analysis and fifty seminal topics and focusing on these Understanding War enables the reader to access and understand the broadest possible array of materials across both time and space beginning with the earliest forms of warfare and concluding with the contemporary situation Stimulating and thought provoking this volume is essential for an understanding of the breadth and depth of the vast scholarship dealing with war and warfare through human history and across cultures

The Unknown Battles That Lie Beyond the Grave Sylvester Alex Bosch, 2023-08-18 The red hot saucy chatter was that on the day Manku rescued Joanna from the sewer hole she wasn't wearing any knickers It was therefore alleged the four men got more than they bargained for during the rescue mission Trump suddenly woke up as though from a slumber He was no longer in the rough and choppy waters He soon realised that his body was different and that he wasn't alone As he stood there in awe and disbelief suddenly he was surrounded by seven individuals adorned in bodies similar to his He responded that for his first mission he was inclined to pick Combat Ghosts from one class only from the class of the dead evil men and women It was just the beginning He was in for a rude shock

Using Space: Critical Geographies of Drugs and Alcohol Christopher M. Moreno, Robert Wilton, 2014-03-05 The consumption of drugs and alcohol and the pleasures and problems arising from this consumption can be understood as embedded and constitutive elements of social family and recreational life At the same time they are key sites of intervention for a broad array of state and non state actors focused on regulation treatment and recovery This edited volume showcases current research on the complex social and cultural geographies of drugs and alcohol Taking an avowedly critical approach the authors draw from a variety of theoretical traditions to explore the socially and spatially embedded nature of alcohol and drug consumption regulation and treatment and the ways in which these give rise to particular lived experiences while foreclosing on others Together the chapters question taken for granted assumptions about the nature of and motivations for drug and alcohol use and pay direct attention to both the intended and unintended consequences of regulation and treatment initiatives Despite and in part because of this critical stance chapters hold immediate implications for drug and alcohol policy and public health interventions This book was originally published as a special issue of Social and Cultural Geography
