prime site for theatrical activity in the early nineteenth century Most towns even quite small ones constructed increasingly elaborate opera houses which stood as objects of local pride and symbols of culture These theaters often hosted amateur performances providing a forum for talent and a focus for community social life As theatrical attendance rose performance halls began offering everything from drama to equestrian shows to burlesque Today many architects believe that the design of a theater should not detract from the stage or screen Marilyn Casto shows that nineteenth century Kentucky audiences however not only expected elaborate decor but considered it a delightful part of the theatergoing experience Embellished arches and painted and gilded walls and ceilings enhanced the theatricality of the performance while adding to the excitement of an evening out In *Actors Audiences and Historic Theaters of Kentucky* Casto investigates the social and architectural history of Kentucky theaters paying special attention to the actors who performed in them and the audiences who saw it all A captivating glimpse into a disappearing slice of American popular culture her work examines what people considered entertaining what they hoped to gain from theatergoing and how they chose and experienced the theaters architectural settings In the social and physical design of these theaters Casto explores nearly two centuries of the state's and nation's cultural history
