Living Martyrs in Late Antiquity and Beyond Diane Fruchtman, 2023-02-01 This book demonstrates that living martyrdom was an important spiritual aspiration in the late antique Latin west and argues that consequently attempts to define study or locate martyrdom must move away from conceptualizations that require or center on death After an introduction that traces the persistence of living martyrs as real objects of spiritual devotion and emulation across the span of Christian history and discusses why such martyrs have been overlooked the book focuses on three significant authors from the late ancient Latin west for whom martyrdom did not require death the Spanish poet Prudentius c 348 413 the senator turned ascetic Paulinus of Nola 353 431 and the influential North African bishop Augustine of Hippo 354 430 Through historically and literarily contextualized close readings of their work this book shows that each of these three authors attempted to create a new paradigm of martyrdom focused on living rather than dying for God By focusing on these living martyrs we are able to see more clearly the aspirations and agendas of those who promoted them as martyrs and how their martyrological discourse illuminates the variety of ways that martyrdom is and can be mobilized in any era to construct new community creating worldviews *Living Martyrs in Late Antiquity and Beyond* is an important resource for historians of Christianity scholars of religious studies and anyone interested in exploring or understanding martyrological discourse The Introduction of this book is available for free in PDF format as Open Access from the individual product page at www.routledge.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Consolation Miracle Chad Davidson, 2003-10-09 *Consolation Miracle* is a book of visceral image driven poems that search for the miraculous in the seemingly ordinary This collection fashions art out of artless objects as a consolation or perhaps compensation for their smallness Yawns and pears cockroaches and crows resonate against historically conflated backdrops while our own hands seem suddenly strange as they hide themselves in our pockets balance a burning cigarette between two fingers or grip the gun that shot Lincoln Other poems address the destruction of empire the end of old Hollywood and the hyperbolic fizzling out of entire centuries Here consolation miracles are rarely the ones sought after yet they radiate in their neglect Davidson's poems help us understand the inner life of cows imagine the plight of a banished Kama Sutra illustrator speculate about Cleopatra's lingerie With a title borrowed from Gabriel Garcia Marquez *Consolation Miracle* contains a magical realism for the twenty first century

Recognizing Miracles in Antiquity and Beyond Maria Gerolemou, 2018-04-23 In recent years scholars have extensively explored the function of the miraculous and wondrous in ancient narratives mostly pondering on how ancient authors view wondrous accounts i.e the treatment of the descriptions of wondrous occurrences as true events or their use More precisely these narratives investigate whether the wondrous pursues a display of erudition or merely provides stylistic variety sometimes such narratives even represent the wish of the author to grant a rational explanation to extraordinary

actions At present however two aspects of the topic have not been fully examined a the ability of the wondrous miraculous to set cognitive mechanisms in motion and b the power of the wondrous miraculous to contribute to the construction of an authorial identity that of kings gods or narrators To this extent the volume approaches miracles and wonders as counter intuitive phenomena beyond cognitive grasp which challenge the authenticity of human experience and knowledge and push forward the frontiers of intellectual and aesthetic experience Some of the articles of the volume examine miracles on the basis of bewilderment that could lead to new factual knowledge the supernatural is here registered as something natural although strange the rest of the articles treat miracles as an endpoint where human knowledge stops and the unknown divine begins here the supernatural is confirmed Thence questions like whether the experience of a miracle or wonder as a counter intuitive phenomenon could be part of long term memory i e if miracles could be transformed into solid knowledge and what mental functions are encompassed in this process are central in the discussion

Fear and the Muse Kept Watch Andy McSmith, 2015-07-07 In this dazzling exploration of one of the most contradictory periods of literary and artistic achievement in modern history journalist Andy McSmith evokes the lives of more than a dozen of the most brilliant artists and writers of the twentieth century Taking us deep into Stalin's Russia *Fear and the Muse Kept Watch* asks the question can great art be produced in a police state For although Josif Stalin ran one of the most oppressive regimes in world history under him Russia also produced an outpouring of artistic works of immense and lasting power from the poems of Anna Akhmatova and Osip Mandelstam to the opera *Peter and the Wolf* the film *Alexander Nevsky* and the novels *The Master and Margarita* and *Doctor Zhivago* For those artists visible enough for Stalin to take an interest in them it was Stalin himself who decided whether they lived in luxury or were sent to the Lubyanka the headquarters of the secret police to be tortured and sometimes even executed McSmith brings together the stories of these artists including Isaac Babel Boris Pasternak Dmitri Shostakovich and many others revealing how they pursued their art under Stalin's regime and often at great personal risk It was a world in which the poet Vladimir Mayakovsky whose bright yellow tunic was considered a threat to public order under the tsars struggled to make the communist authorities see the value of avant garde art Babel publicly thanked the regime for allowing him the privilege of not writing and Shostakovich's career veered wildly between public disgrace and wealth and acclaim In the tradition of Eileen Simpson's *Poets in Their Youth* and Phyllis Rose's *Parallel Lives* *Fear and the Muse Kept Watch* is an extraordinary work of historical recovery It is also a bold exploration of the triumph of art during terrible times and a book that will stay with its readers for a long long while

How to Teach Poetry Writing at Key Stage 3 Pie Corbett, 2013-10-23 *How to Teach Poetry Writing at Key Stage 3* is a practical manual for teachers to be used directly in the classroom The book begins with a series of poetry games designed to warm up creativity and strengthen the imagination

These are followed by a series of creative poetry workshops based on the writer's own experience both as a teacher and poet running workshops in schools which focus on developing a poetry base for young writers. This imaginative base provides a range of poetic techniques and gives pupils experience in developing a repertoire of different forms. The book also offers advice on how to organize an effective workshop and demonstrates how to teach poetry writing in a dynamic creative and imaginative way in relationship with the KS3 national framework. Pie Corbett also provides useful advice on working with visiting poets in school, addresses for relevant web sites, a list of books for follow up work and a glossary of poetic forms and techniques. Workshops include writing from first hand observation, autobiography, valuing our lives, writing about paintings, sculpture and music, surreal boxes and the bag of words, secrets, lies, wishes and dreams, creating images, taking word snapshots, riddles, hiding the truth and red wheelbarrows and messages for mice. Weschler, 2013-01-02 In recent years as countries around the globe have begun to move from dictatorial to more democratic systems of governance, no more traumatic or dramatic ethical problem has arisen than what to do with the previous regime's torturers. In most cases the security and military apparatuses responsible for the overwhelming majority of human rights abuses still retain tremendous power and will not abide any settling of accounts. Now New Yorker staff reporter Lawrence Weschler tells the extraordinary story of how, against tremendous odds, torture victims and human rights activists in two Latin American countries, Brazil and Uruguay, tried to bring their torturers to justice and to rehabilitate their whole societies from harrowing periods of silence and repression. In this first of his two accounts he tells how a tiny group of torture victims, clerics and human rights activists in Brazil launched an extremely risky nonviolent plot to get even with the former torturers by publishing an indisputable account of their savage system of repression, indisputable because it is drawn from the regime's own files. In the second set in Uruguay he tells how a more broadly based movement attempted to bring to light the dark history of a military regime engaged in more political incarceration per capita than any other on earth at that time. In this illuminating and beautifully written book, portions of which appeared in five issues of The New Yorker, Weschler examines what a small number of individuals can do to retrieve history and truth from the hands of torturers. **Miracle Moments & Memories**, **Unity**, 1883 The Poet-saints of Mahārāshtra, 1926 Manifesting Miracle Jonobbas

Baskaran, 2025-06-19 I don't believe that a single book can change a person's life. But I strongly believe a book can trigger a chemical reaction in your mind, a spark in a forgotten corner of your brain. Manifesting Miracle is written with that spark in mind. This isn't a self-help manual or a motivational pitch. It's emotional. It's personal. It carries the weight of lived experiences, quiet struggles, silent prayers, and invisible turning points. It explores the subtle but undeniable magic that runs through our everyday lives when we pause long enough to see it. The title didn't arrive in a flash. It revealed itself through moments of reflection, patterns I couldn't ignore, and the growing awareness that many of my life's turning points weren't just results of logic or effort, but of belief, emotion, and something higher. Manifesting Miracle embraces the proven and established spiritual

principles the kind spoken of in ancient texts and echoed by modern philosophers These are not grand theories built on abstraction but grounded truths shaped by experience When we begin to truly believe with clarity and consistency life starts to shift Not always in ways we expect but often in ways we deeply need This book captures that space between action and surrender between planning and trust It s filled with real stories full of emotion and meaning and through them you might find echoes of your own life If you ve ever wondered whether belief has power or if life really listens when we speak to it deeply this book is for you Because once you spot the miracles once you become aware of them you realise they re not one time wonders They re repeatable And when they are you can scale them You can use that awareness to create magic of any size
