War Against The People Israel The Palestinians And Global Pacification:

War Against the People Jeff Halper, 2015-09-20 Shortlisted for the Palestine Book Awards 2016 Modern warfare has a new form The days of international combat are fading So how do major world powers maintain control over their people today This book is a disturbing insight into the new ways world powers such as the US Israel Britain and China forge war today It is a subliminal war of surveillance and whitewashed terror conducted through new high tech military apparatuses designed and first used in Israel against the Palestinian population Including nano technology hidden camera systems information databases on civilian activity automated targeting systems and unmanned drones it is used to control the very people the nation s leaders profess to serve Jeff Halper reveals that this practice is much more insidious than was previously thought As Western governments claw back individual liberties War Against the People is a reminder that fundamental human rights are being compromised for vast sections of the world and that this is a subject that should concern everyone

Pacification Mark Neocleous, 2025-02-18 This provocative book offers the first sustained critique of the theory and practice of pacification In his new book critical theorist Mark Neocleous engages in a sustained critique of the theory and practice of pacification Combining philosophical analysis with historical detail Neocleous analyses the development of pacification as a key concept through which capitalist modernity has been organized offering readers the first book that treats pacification as an important concept in the history of state power and capitalism Neocleous s approach is fourfold examining pacification as social warfare carried out through the ideology of peace as a form of social police carried out through mechanisms of security as law and order exercised through the permanent wars of class society and as the myriad practices of power designed to counter insurgency Making use of official documents of state the writings of counterinsurgency thinkers and the ideas perpetuated by practitioners of counterrevolution the book unravels the complex ways through which pacification generates new forms of social war and new modes of policing that reproduce capitalist order and fabricate obedient subjects Through expansive accounts of war and police and engaging with a range of topics from debt to death from stasis to civil war and from the police kettle to the politics of fear the book offers a provocative analysis of the ways in which state and capital combine to build a pacified social order

The Palestinians and East Jerusalem Bruno Huberman, 2023-12-28 Over the last two decades the Israeli government has implemented policies for the development of East Jerusalem These comprise urban revitalization as well as professional training and the promotion of entrepreneurship for the Palestinians But how do these policies co exist under Israeli settler colonial power This book focuses on the contradiction between the rise of neoliberal development in East Jerusalem and the simultaneous continuation of Israeli settler colonialism It argues that the combination of settler colonialism and neoliberalism allows for the primitive accumulation of capital to also occur permanently through deceptive soft forms More than this based on theoretical research interviews and an analysis of race and class relations in East Jerusalem the book shows that neoliberal development is used

to facilitate the reproduction of racial hierarchies settler privileges and the pacification of the Palestinian residents where these outcomes are presented as the natural result of market relations The author calls this environment neoliberal settler colonialism and explores Palestinians new acts of resistance that exist ambivalently within this structure A significant theoretical contribution the study highlights a new settler colonial and neoliberal sociability that co-opts the exploited and oppressed

The Palestine Laboratory Antony Loewenstein, 2024-10-01 How Israel makes a killing from the occupation of Palestine WINNER OF THE 2023 WALKLEY NON FICTION JOURNALISM PRIZE Finalist for the 2023 Moore Prize for Human Rights Writing Israel's military industrial complex uses the occupied Palestinian territories as a testing ground for weaponry and surveillance technology that they then export around the world to despots and democracies For more than 50 years occupation of the West Bank and Gaza has given the Israeli state invaluable experience in controlling an enemy population the Palestinians It's here that they have perfected the architecture of control Best selling journalist Antony Loewenstein author of Disaster Capitalism uncovers this largely hidden world in a global investigation with secret documents revealing interviews and on the ground reporting This book shows in depth for the first time how Palestine has become the perfect laboratory for the Israeli military techno complex surveillance home demolitions indefinite incarceration and brutality to the hi-tech tools that drive the Start up Nation From the Pegasus software that hacked Jeff Bezos and Jamal Khashoggi's phones the weapons sold to the Myanmar army that has murdered thousands of Rohingyas and drones used by the European Union to monitor refugees in the Mediterranean who are left to drown Israel has become a global leader in spying technology and defence hardware that fuels the globe's most brutal conflicts As ethno nationalism grows in the 21st century Israel has built the ultimate model

Decolonizing Israel, Liberating Palestine Jeff Halper, 2021-01-20 Extremely convincing Electronic Intifada For decades we have spoken of the Israel Palestine conflict but what if our understanding of the issue has been wrong all along This book explores how the concept of settler colonialism provides a clearer understanding of the Zionist movement's project to establish a Jewish state in Palestine displacing the Palestinian Arab population and marginalizing its cultural presence Jeff Halper argues that the only way out of a colonial situation is decolonization the dismantling of Zionist structures of domination and control and their replacement by a single democratic state in which Palestinians and Israeli Jews forge a new civil society and a shared political community To show how this can be done Halper uses the 10 point program of the One Democratic State Campaign as a guide for thinking through the process of decolonization to its post colonial conclusion Halper's unflinching reframing will empower activists fighting for the rights of the Palestinians and democracy for all

Digital Jihad Erik Skare, 2016-10-15 A new and innovative form of dissent has emerged in response to the Israeli occupation of Palestine Dubbed electronic jihad this approach has seen organized groups of Palestinian hackers make international headlines by breaching the security of such sites as the Tel Aviv Stock Exchange AVG Avira Whatsapp and BitDefender Though initially confined to small clandestine groups hacktivism is now increasingly

being adopted by militant Palestinian parties including Hamas and Palestinian Islamic Jihad who have gone so far as to incorporate hackers into their armed brigades Digital Jihad is the first book to explore this rapidly evolving and still little understood aspect of the Palestinian resistance movement Drawing on extensive interviews with hackers and other activists it provides a unique and fascinating new perspective on the Palestinian struggle **In Search of the River Jordan** James Fergusson,2023-03-14

disciplines of anthropology economics law political science and sociology to map out and critically assess the impacts and responses to this peace in different geographical and political settings These innovative analyses also investigate processes that might enable a future to be built based on greater equality and an end to the oppression and violence that currently exists between the Jordan River and the Mediterranean Sea and beyond

Moving Memory Siri Schwabe,2023-06-15 Moving Memory is an ethnography of remembrance in the field of tension between post dictatorship Chile and occupied Palestine that offers new insights into memory politics as a globally resurgent and increasingly transnational phenomenon It tells a largely untold story of a Palestinian diaspora how a predominantly Christian conservative and wealthy elite has come to form the backbone of a diasporic community to which the Palestinian struggle remains a central mobilizing force Schwabe explores how Palestinian diaspora politics play into larger attempts to obscure the recent Chilean past and its consequences all the while working to counter Zionist efforts to negate and erase Palestinian existence Despite considerable efforts to contain them memories move They travel across porous and ever changing geographical and socio political boundaries reconfiguring realities in the process In exploring the paradoxes of remembering and forgetting between Palestine and Chile as intertwining nodes in the complex field of global memory politics the book demarcates the limits and possibilities of forging solidarity at the fault lines of memory

Balfour's Shadow David Cronin,2017-06-20 This is the controversial history of the British government s involvement in the Zionist project from the Balfour Declaration in 1917 to the present day Written by the British Foreign

Secretary Arthur James Balfour the Declaration stated His Majesty's government view with favour the establishment in Palestine of a national home for the Jewish people and will use their best endeavours to facilitate the achievement of this object Its impact on history has been immense and still reverberates a century later starting what has been referred to as a hundred years of war against the Palestinian people This history focuses on the devastating events which resulted from the Declaration such as the Arab Revolt the Nakba and establishment of the state the 1956 and 1967 wars the Cold War and the Oslo period It also shines a light on controversial figures such as Tony Blair In doing so Balfour's Shadow provides a fascinating take on this much contested important history

Palestine on the Air Karma R. Chavez, 2019-10-15 Few doubt the pro Israel bias of the Western media It takes the form of overtly supporting Israel's government policies or of maintaining neutrality or silence on issues of Israeli violence occupation and settlement expansion Scholar and activist Karma R Chavez collects eleven interviews that allow dissenting voices a forum to provide rarely heard perspectives on the Palestinian struggle for justice land and self determination This volume in the Common Threads series is a supplement to the Journal of Civil and Human Rights The conversations within took place on a radio program Chavez hosted from 2013-16 There journalists activists academic figures authors and Palestinian citizens of Israel shared a wide range of thoughts and experiences Participants covered topics that include everyday life for Palestinians in the West Bank and in Israel the Boycott Divestment Sanctions BDS movement that arose in response to Israel's ongoing actions the Steven Salaita controversy at the University of Illinois the pro Palestine social movement on college campuses Israel's pinkwashing of human rights abuses the aftermath of the 2014 attack on Gaza and Chavez's 2015 visit to the West Bank

Covid-19 in Palestine Nadia Naser-Najjab, 2024-01-11 Israel and Palestine were worlds apart during the pandemic that claimed over five million lives globally While Palestinians were forced to adopt crude survival measures and endure economic privations Israel was praised as a vaccination world leader This book demonstrates how Israel utilized the pandemic to tighten surveillance and control over Palestine and the Palestinians Drawing on theories of settler colonialism and the concept of necropolitics the book is a vital testament to the reality of the Israeli settler colonial project today The author uses case studies and interviews with Palestinians from the Gaza Strip Hebron Kufr Aqab and the Jalazoun refugee camp to understand the lived experiences of Palestinians The newest colonial policies are discussed including how Israel activated a counter terrorism database that could track citizens and ensure they adhered to lockdown regulations It also shows how Israel destroyed Palestinian infrastructure essential for water sanitation and hygiene leaving Palestinians unable to fight the virus The book shows that for Palestinians the pandemic was simply the latest in a long line of national catastrophes in a context where settler colonialism prevails

Analyzing the Israel Effect in Canada Peter Eglin, 2024-05-21 What is the life of a Palestinian worth to intellectuals in Canadian universities and news media Analyzing the Israel Effect documents and analyzes the discursive and organizational methods by which public criticism of Israel's oppression of the Palestinians is silenced in Canada as

experienced through ten episodes in the life of the author over a thirty year period from 1990 2020 in interaction with his university and local and national Canadian news media As a sociological work the book is a critical autoethnography But it is also an atrocity tale a horror story of institutional self censorship amounting to the abrogation of intellectual responsibility by those specifically charged with upholding it In the end the book is a crossover between academic treatise and journalistic expos a historical narrative written by an academic from the standpoint of a political participant observer Rajan Philips The Israel Effect itself is analyzed as a three tier propaganda industry Hasbara is produced in Israel Tier 1 disseminated to Israel Lobby groups around the world Tier 2 and independently re produced actively and passively by the intellectual institutions universities and news media Tier 3 This book is about the non Jewish non Zionist institutions of Tier 3 the onlookers to war crimes ethnic cleansing and arguably genocide as in Gaza in October November 2023 This work stands as a compelling testament to the importance of preserving freedom of expression and the vital role intellectuals play in challenging injustice and promoting transparency It is ideal for scholars activists and anyone seeking to understand the complexities of political activism and the power dynamics behind public discourse

Fabricating Homeland Security Rhys Machold, 2024-09-24 Homeland security is rarely just a matter of the homeland it involves the circulation and multiplication of policing practices across borders Though the term homeland security is closely associated with the United States Israel is credited with first developing this all encompassing approach to domestic surveillance and territorial control Today it is a central node in the sprawling global homeland security industry worth hundreds of billions of dollars And in the wake of the 2008 Mumbai terrorist attacks India emerged as a major growth market Known as India s 9 11 or simply 26 11 the attacks sparked significant public pressure to adopt modern homeland security approaches Since 2008 India has become not only the single largest buyer of Israeli conventional weapons but also a range of other surveillance technology police training and security expertise Pairing insights from science and technology studies with those from decolonial and postcolonial theory Fabricating Homeland Security traces 26 11 s political and policy fallout concentrating on the efforts of Israel s homeland security industry to advise and equip Indian city and state governments Through a focus on the often unseen and overlooked political struggles at work in the making of homeland security Rhys Machold details how homeland security is a universalizing project which seeks to remake the world in its image and tells the story of how claims to global authority are fabricated and put to work

Gizzi, 2021-10-26 PEACE AND FAITH Christian Churches and the Israeli Palestinian Conflict composed of new essays is the first collection to bring together writers from different faith communities to discuss the Boycott Divestment and Sanctions movement's impact on one of the more fractious topics addressed by Christian denominations the Israeli Palestinian conflict In so doing it builds on interfaith projects under way for decades Theology and politics intermingle in debates taking place in local churches Christian NGOs and national church meetings that define official policy The debates revive and reframe the most basic values of Christianity and the questions church members seek to resolve How do Christians today live to the principles Jesus articulated How can justice be pursued in the context of competing national narratives and historical understandings What bearing do or should centuries of Christian violence against Jews and Muslims have on contemporary theology and ethics Is it ethical or even possible to set aside millennia of Christian anti-Semitism in judging Israel's conduct What Christian values should be honored in pursuing Jesus's mission of reconciliation today How may the pursuit of truth be corrupted by passionate social witness Can advocacy cross the line into hatred These are among the critical questions this collection poses and attempts to address
