

EXPLICIT INSTRUCTION

Explicit instruction is a highly structured approach to teaching that involves the teacher guiding students through the learning process in a slow and methodical manner.

DEFINITION

Rosenshine (1987) defined explicit instruction as:

"...a systematic method of teaching with emphasis on proceeding in small steps, checking for understanding, and achieving active and successful participation by all students."
(Rosenshine, 1987, p. 34)

EXAMPLE

- **Recipes:** A recipe lays out the steps as clearly as possible so the cook just has to follow along and doesn't need to use too much creative thinking.
- **University Lectures:** It is common for university lectures to involve clear, direct explanations of information. The one-to-many lecture model doesn't allow much time and space for active learning scenarios.
