Go Green at Home Frank Y. Panol Ph. D.,2011-10 The central idea of this book is that saving energy and water saves the households money and simultaneously help reduce greenhouse gas emissions that cause global warming It also aims to give readers better understanding of the green concept to enable informed participation in the current discourse pertaining to environment and climate change The first chapter reviews environmental issues confronting the world in general and the U S in particular Chapter 2 discusses federal energy efficiency programs that relate directly with energy saving and resource conservation efforts in households Chapter 3 focuses on measures of saving energy at home including use of compact fluorescent lamps taking advantage of residual heat in electric stoves energy efficient ways of using kitchen appliances informed choice and use of home heating and cooling systems and others Chapter 4 deals with conserving water inside and outside homes including use of high efficiency toilets low low shower heads etc The economics of energy and water use efficiency covered in Chapter 5 quantifies the savings derived from most of the measures discussed in Chapters 3 and 4 The goal is to show in dollar terms how much households could save by following green practices at home The challenges of dealing with solid waste from households are examined in Chapter 6 Particular focus is given on Pay As You Throw PAYT scheme in waste collection systems and fees as well as the three Rs in waste management Reduce Reuse and Recycle Recognizing the impact of children on energy and water use at home the author devotes Chapter 7 on educating and engaging children in green practices Two framework proposals aimed at enhancing sustainability of green movement in the country are presented in Chapter 8 including establishment of green camps and providing tax incentives for going green at home Proposal for establishing green camps is directed to private business sector or non profit organizations and the government while the tax incentive proposal is directed solely to the government

Curriculum in Early Childhood

Judith A. Schickedanz, 1997 KEY BENEFIT This book takes an integrated theme based approach to curriculum rather than focusing on specific subject matters or activity areas Presents six umbrella themes Familiar things in our world the physical world the animal world the plant world the world of communication and the world of vehicles and transportation The curriculum guide section is organized into six themes and accompanied by appropriate activities Preservice and inservice early childhood educators *Story Stretchers for the Primary Grades* Shirley C. Raines, Robert J. Canady, 1992 A collection of ideas for activities to use in conjunction with over 90 children's books *Language and the Curriculum* Deirdre Martin, Carol Miller, 2013-10-23 First Published in 1999 This book takes examples from the work of practising teachers and speech and language therapists who have reflected on the appropriateness and success of their teaching with learners who have speech and language difficulties The chapters focus on central issues concerning the relationship between language learning and the curriculum The practitioners chart their cycle of planning teaching evaluating planning and teaching again They discuss their perceptions and reflections on the effectiveness of their teaching and the children's learning
