Strategy Sir Lawrence Freedman, 2013-09-02 Selected as a Financial Times Best Book of 2013 In *Strategy A History* Sir Lawrence Freedman one of the world's leading authorities on war and international politics captures the vast history of strategic thinking in a consistently engaging and insightful account of how strategy came to pervade every aspect of our lives The range of Freedman's narrative is extraordinary moving from the surprisingly advanced strategy practiced in primate groups to the opposing strategies of Achilles and Odysseus in *The Iliad* the strategic advice of Sun Tzu and Machiavelli the great military innovations of Baron Henri de Jomini and Carl von Clausewitz the grounding of revolutionary strategy in class struggles by Marx the insights into corporate strategy found in Peter Drucker and Alfred Sloan and the contributions of the leading social scientists working on strategy today The core issue at the heart of strategy the author notes is whether it is possible to manipulate and shape our environment rather than simply become the victim of forces beyond one's control Time and again Freedman demonstrates that the inherent unpredictability of this environment subject to chance events the efforts of opponents the missteps of friends provides strategy with its challenge and its drama Armies or corporations or nations rarely move from one predictable state of affairs to another but instead feel their way through a series of states each one not quite what was anticipated requiring a reappraisal of the original strategy including its ultimate objective Thus the picture of strategy that emerges in this book is one that is fluid and flexible governed by the starting point not the end point A brilliant overview of the most prominent strategic theories in history from David's use of deception against Goliath to the modern use of game theory in economics this masterful volume sums up a lifetime of reflection on strategy

Cross-Cultural Perspectives on Hagiographical Strategies Massimo A. Rondolino,2017-01-12 This book examines the potential of conducting studies in comparative hagiology through parallel literary and historical analyses of spiritual life writings pertaining to distinct religious contexts In particular it focuses on a comparative analysis of the early sources on the medieval Christian Saint Francis of Assisi 1182 1226 and the Tibetan Buddhist Milarepa c 1052 1135 up to and including the so called standard versions of their life stories written by Bonaventure of Bagnoregio 1221 1274 and Tsangny n Heruka 1452 1507 respectively The book thus demonstrates how in the social and religious contexts of both 1200s Italy and 1400s Tibet narratives of the lives deeds and teachings of two individuals recognized as spiritual champions were seen as the most effective means to promote spiritual doctrinal and political agendas Therefore as well being highly relevant to those studying hagiographical sources this book will be of interest to scholars working across the fields of religion and the comparative study of religious phenomena as well as history and literature in the pre modern period

Strategic Warning Intelligence John A. Gentry,Joseph S. Gordon,2019-03-01 John A Gentry and Joseph S Gordon update our understanding of strategic warning intelligence analysis for the twenty first century Strategic warning the

process of long range analysis to alert senior leaders to trending threats and opportunities that require action is a critical intelligence function. It also is frequently misunderstood and underappreciated. Gentry and Gordon draw on both their practitioner and academic backgrounds to present a history of the strategic warning function in the US intelligence community. In doing so they outline the capabilities of analytic methods, explain why strategic warning analysis is so hard and discuss the special challenges strategic warning encounters from senior decision makers. They also compare how strategic warning functions in other countries, evaluate why the United States has in recent years emphasized current intelligence instead of strategic warning and recommend warning related structural and procedural improvements in the US intelligence community. The authors examine historical case studies including postmortems of warning failures to provide examples of the analytic points they make. Strategic Warning Intelligence will interest scholars and practitioners and will be an ideal teaching text for intermediate and advanced students.

Strategic Modelling and Business Dynamics John D. W. Morecroft, 2015-05-27

Insightful modelling of dynamic systems for better business strategy. The business environment is constantly changing and organisations need the ability to rehearse alternative futures. By mimicking the interlocking operations of firms and industries, modelling serves as a dry run for testing ideas, anticipating consequences, avoiding strategic pitfalls and improving future performance. Strategic Modelling and Business Dynamics is an essential guide to credible models helping you to understand modelling as a creative process for distilling and communicating those factors that drive business success and sustainability. Written by an internationally regarded authority, the book covers all stages of model building from conceptual to analytical. The book demonstrates a range of in depth practical examples that vividly illustrate important or puzzling dynamics in firm operations, strategy, public policy and everyday life. This updated new edition also offers a rich Learners website with models, articles and videos as well as a separate Instructors website resource with lecture slides and other course materials. See Related Websites Extra section below. Together the book and websites deliver a powerful package of blended learning materials that introduce the system dynamics approach of modelling strategic problems in business and society. Include industry examples and public sector applications with interactive simulators and contemporary visual modelling software. Provide the latest state of the art thinking, concepts and techniques for systems modelling. The comprehensive Learners website features models, microworlds, journal articles and videos. Easy to use simulators enable readers to experience dynamic complexity in business and society. Like would be CEOs, readers can re design operations and then re simulate in the quest for well coordinated strategy and better performance. The simulators include a baffling hotel, shower, a start up low cost airline, an international radio broadcaster, a diversifying tyre maker, commercial fisheries and the global oil industry. Much more than an introduction, John Morecroft's Strategic Modelling and Business Dynamics uses interactive mini simulators and microworlds to create an engaging and effective learning environment in which readers, whatever their background, can develop their intuition about complex dynamic systems. John
