Trapped in the Middle? José Antonio Alonso, José Antonio Ocampo, 2020-10-22 There is growing evidence that overcoming the low income threshold and reaching middle income status is not sufficient for countries to converge toward high income levels Few middle income countries have successfully completed that transit in recent decades with the majority remaining in the middle income group and so facing what has come to be called the middle income trap It is therefore essential to explore whether middle income traps really exist and if they do how these pitfalls are manifested what their causes are what economic policy measures are required to escape from them and what international cooperation can do to support this process Trapped in the Middle brings together diverse perspectives on these important questions providing new evidence and analytical approaches to enrich the debate on the domestic and international challenges faced by a significant number of middle income countries in which over three quarters of the global population live Erik Chisholm, Scottish Modernist, 1904-1965 John Purser, 2009 A study of the life and works of Erik Chisholm one of the most influential figures in twentieth century Scottish music Erik Chisholm was the pre eminent composer and musician in Scottish classical music in the first half of the twentieth century As Sir Charles Mackerras put it Chisholm was a musician of rare capabilities He was a pianist and organist a conductor a composer a lecturer on music an entrepreneur and administrator and to all these he brought a unique blend of originality flair and energy As well as his life in Glasgow Chisholm travelled to the Far East notably Singapore for the Entertainments and National Service Association during the Second World War and subsequently became Professor of Music at the University of Cape Town where he greatly developed the study and performance of music He conducted numerous first British performances including Berlioz s The Trojans in 1935 and Bartok s Bluebeard s Castle in 1957 Accounts of the visits to Glasgow by such composers as Bart k Casella Hindemith et al are being presented here Erik Chisholm Scottish Modernist will be of general interest to scholars and students of twentieth century music In particular those interested in the development of music opera and ballet in Scotland Scottish literature and cultural history will find this book of much value It will also be of interest to those studying the music of Bart k Sorabji Hindemith Walton Bax Casella and Shostakovich whom Chisholm knew personally and brought to Scotland **Christine de Pizan's Advice for Princes in Middle English Translation** Misty Schieberle, 2020-10-29 One of the most popular mirrors for princes Christine de Pizan s Epistre Othea Letter of Othea circulated widely in England Speaking through Othea the goddess of wisdom and prudence in the guise of instructing Hector of Troy Christine advises rulers defends women against misogyny and articulates complex philosophical and theological ideals This volume brings together for the first time the two late medieval English translations Stephen Scrope s precise translation The Epistle of Othea and the anonymous Litel Bibell of Knyghthod once criticized as a flawed translation With substantial introductions and comprehensive explanatory notes that attend to literary and manuscript traditions this volume contributes to the reassessment of how each English translator grappled with adapting a French

woman's text to English social political and literary contexts These new editions encourage a fresh look at how Christine's ideas fit into and influenced the English literary tradition

Middle English Literature Christopher Cannon, 2013-04-18 This book provides a boldly original account of Middle English literature from the Norman Conquest to the beginning of the sixteenth century It argues that these centuries are in fundamental ways the momentous period in our literary history for they are the long moment in which the category of literature itself emerged as English writing began to insist for the first time that it floated free of any social reality or function This book also charts the complex mechanisms by which English writing acquired this power in a series of linked close readings of both canonical and more obscure texts It encloses those readings in five compelling accounts of much broader cultural areas describing in particular the productive relationship of Middle English writing to medieval technology insurgency statecraft and cultural place concluding with an in depth account of the particular arguments emphases and techniques English writers used to claim a wholly new jurisdiction for their work Both this history and its readings are everywhere informed by the most exciting developments in recent Middle English scholarship as well as literary and cultural theory It serves as an introduction to all these areas as well as a contribution in its own right to each of them
