nineteenth century beginnings to the present day All photography requires light but the light of flash photography is quite
distinctive artificial sudden shocking intrusive and extraordinarily bright Associated with revelation and wonder it has been
linked to the sublimity of lightning Yet it has also been reviled it s inseparable from anxieties about intrusion and violence it
creates a visual disturbance and its effects are often harsh and create exaggerated contrasts Flash explores flash s power to
reveal shocking social conditions its impact on the representation of race its illumination of what would otherwise remain
hidden in darkness and its capacity to put on display the most mundane corners of everyday life It looks at flash s distinct
aesthetics examines how paparazzi chase celebrities how flash is intimately linked to crime how flash has been used to light
up and interrupt countless family gatherings how flash can stop time allowing one to photograph rapidly moving objects or
freeze in a strobe and it considers the biggest flash of all the atomic bomb Examining the work of professionals and amateurs
news hounds and art photographers photographers of crime and of wildlife the volume builds a picture of flash s place in
popular culture and its role in literature and film Generously illustrated throughout Flash brings out the central role of this
medium to the history of photography and challenges some commonly held ideas about the nature of photography itself
