Storming Heaven Class Composition And Struggle In Italian Autonomist Marxism:

Storming Heaven Steve Wright, 2017 Storming Heaven Steve Wright, 2017 A history of Italian workerist theory taking in Antonio Negri Mario Tronti and Sergio Bologna **Storming Heaven** Steve Wright, 2002-02-20 Storming Heaven is the first comprehensive survey of Italian autonomist theory from its origins in the anti stalinist and workerist left of the 1950s to its heyday twenty years later Autonomist marxism was a political tendency which privileged themes self organisation construction of identity grassroots politics subjects in struggle which in many ways can be seen as the precursor of today s debates around direct action protest Emphasising the dynamic nature of class struggle as the distinguishing feature of autonomist thought Wright explores how its understanding of class politics developed alongside emerging social movements Offering a critical and historical exploration of the tendency s emergence in postwar Italy Storming Heaven moves beyond the crisis of traditional analytical frameworks on the left and assesses the strengths and limitations of autonomist marxism as first developed by Antonio Negri Mario Tronti Sergio Bologna and others *Marx's Not-Capital* Benjamin Tetler, 2024-05-23 As a contribution to critical social theory this book reconsiders Marx s critique of political economy through the concept of labour as not capital Engaging with thinkers who have dealt with Marx s concepts of not capital and not value Tetler examines whether and how these concepts can contribute significantly towards a renewal of the critique of political economy beyond the limits of traditional Marxism In doing so he provides the first in depth interrogation of these concepts both within Marx s work itself and within and across the various intellectuals who have put them to use in their attempts to address the faults of traditional Marxism He argues that the theory of value that sits at the heart of Marx s critique of political economy requires a negative conception of labour In helping establish this the notions of labour as not capital value are shown to have formidable ramifications concerning the crisis ridden nature of capitalist social relations and the struggles operative within and against them Guerrillas of Desire Kevin Van Meter, 2017-05-22 Few have approached radical theory with the rigor and skill of Kevin Van Meter Empowering lucid and inspiring Guerrillas of Desire provides an exhaustive and much needed retooling of anarchism that will align the dreams of becoming revolutionaries with the reality of everyday resistance Alexander Reid Ross author of Against the Fascist Creep Looking for the political in the everyday and bringing anarchism into a productive dialogue with Autonomist Marxism Kevin Van Meter challenges many of the left s usual assumptions and forces a reconsideration of what we mean by struggle Kristian Williams author of Our Enemies in Blue Behind the smiling faces of cashiers wait staff and workers of all sorts a war is being planned usually without the knowledge of official political and labor organizations Guerrillas of Desire begins with a provocation The Left is wrong It s historical and current strategies are too often based on the assumption that working and poor people are unorganized acquiescent to systems of domination or simply uninterested in building a new world The fact is as C L R James has noted they are rebelling every day in ways of their own invention pilfering sabotaging faking illnesses squatting fleeing and counter strategizing

Kevin Van Meter maps these undercurrents illustrating that everyday resistance is an important factor in revolution and something radicals of all stripes must understand Kevin Van Meter is an activist scholar based in the Pacific Northwest He is coeditor of *Uses of a Whirlwind Movement Movements and Contemporary Radical Currents in the United States* **The Revolt Eclipses Whatever the World Has to Offer** Idris Robinson, 2025-11-25 A series of reflections surveying the events of an ailing country traversed by civil war on multiple fronts What is it to be Black in America It is to be constantly given unsolicited advice on how to run your life by people of all stripes cultures races and opinions so that the message is by its very design inconsistent with itself However there is one common feature that unites them all besides their arrogant insistence to respond to what no one has asked of them you can be sure that not one of these philistines has read let alone understood a single line of Plato It is with this guiding insight that the author seeks to think his own material existence and resolves that philosophy must implicate itself in the utter demise of the alienated and oppressive wasteland in which he has been thrown **Old Gods, New Enigmas** Mike Davis, 2018-06-26 Is revolution possible in the age of the Anthropocene Marx has returned but which Marx Recent biographies have proclaimed him to be an emphatically nineteenth century figure but in this book Mike Davis s first directly about Marx and Marxism a thinker comes to light who speaks to the present as much as the past In a series of searching propulsive essays Davis the bestselling author of *City of Quartz* and recipient of a MacArthur Fellowship explores Marx s inquiries into two key questions of our time Who can lead a revolutionary transformation of society And what is the cause and solution of the planetary environmental crisis Davis consults a vast archive of labor history to illuminate new aspects of Marx s theoretical texts and political journalism He offers a lost Marx whose analyses of historical agency nationalism and the middle landscape of class struggle are crucial to the renewal of revolutionary thought in our darkening age Davis presents a critique of the current fetishism of the anthropocene which suppresses the links between the global employment crisis and capitalism s failure to ensure human survival in a more extreme climate In a finale *Old Gods New Enigmas* looks backward to the great forgotten debates on alternative socialist urbanism 1880 1934 to find the conceptual keys to a universal high quality of life in a sustainable environment **Politics of the Many** Benjamin Halligan, Alexei Penzin, Stefano Pippa, Rebecca Carson, 2021-09-09 *Politics of the Many* draws inspiration from Percy Bysshe Shelley s celebrated call to arms Ye are many they are few This idea of the Many as a general form of emancipatory subjectivity that cannot be erased for the sake of the One is the philosophical and political assumption shared by contributors to this book They raise questions of collective agency and its crisis in contemporary capitalism via new engagements with Marxist philosophy psychoanalysis theories of social reproduction and value form and post colonial critiques and drawing on activist thought and strategies This book interrogates both established and emergent formations of the Many the people classes publics crowds masses multitudes tracing their genealogies their recent failures and victories and their potentials to change the world The book proposes and explores an intense and provoking series of new or
