Suresh Kenkare, 2014-10-18 In today s complex global business scenario the Charismatic Leader is the organization s transformation specialist His holistic quest raises the organization above internal and external complexities to turn in high quality growth balanced by the five existential imensions Economic Emotional Intellectual Cultural and Spiritual The end result is far greater than the parts The harmony of these five dimensions produces the sixth dimension organic evolution Charisma the magnetic spiritual force is born of the alchemy of Ethos Pathos and Logos in that order Ethos is what you decide you are about and what you value It gives you the criteria for making life decisions Pathos is how you relate to others and reflects your own personal mastery derived from deep rooted beliefs and values Logos is about your dreams mission and purpose The Charismatic Leader is deeply aware of his Inner Self and divines his own Truths the substance of divine nature in his reflection periods He relentlessly walks the

path of those Truths with conscious global mindfulness focusing on the spirit of Self Evolution and not the act of walking You cannot psych yourself into self compassion or peace of mind It comes when your life is in harmony with your Truths A leader's personal mastery comes from self awareness and the lifelong process of experiencing and learning This book is for everyone who wants to transcend into being a Charismatic Leader in the new age The text supports current trends in leadership towards sustainability employee engagement work life integration collaboration coaching and worldwide connectivity It is a counter narrative to beliefs of entitlement and self indulgence at the expense of earned competency This volume is an excellent reference for leadership courses in universities for trainers and business leaders as well as for the young reader in search of greater self awareness I particularly liked the emphasis on self management over dependence inspiration over autocratic leadership spiritual awareness over constant electronic stimulus without introspection and a focus outward to serving others over short term gains
