Everything to Nothing Geert Buelens, 2016-02-16 The poets Great War violence revolution and modernism The First World War changed the map of Europe forever Empires collapsed new countries were born revolutions shocked and inspired the world This tumult sometimes referred to as the literary war saw an extraordinary outpouring of writing The conflict opened up a vista of possibilities and tragedies for poetic exploration and at the same time poetry was a tool for manipulating the sentiments of the combatant peoples In Germany alone during the first few months there were over a million poems of propaganda published We think of war poets as pacifistic protestors but that view has been created retrospectively The verse of the time particularly in the early years of the conflict in Fernando Pessoa or Filippo Tommaso Marinetti for example could find in the violence and technology of modern warfare an awful and exhilarating epiphany In this cultural history of the First World War the conflict is seen from the point of view of poets and writers from all over Europe including Rupert Brooke Anna Akhmatova Guillaume Apollinaire Gabriele D Annunzio Vladimir Mayakovsky Rainer Maria Rilke and Siegfried Sassoon Everything to Nothing is the award winning panoramic history of how nationalism and internationalism defined both the war itself and its aftermath revolutionary movements wars for independence civil wars the treaty of Versailles It reveals how poets played a vital role in defining the stakes ambitions and disappointments of postwar Europe

The Waning of Emancipation Guy Miron, 2011-11-15 Explores the role of public memory and images of the past in the Jewish communities of Germany France and Hungary as they faced changing political and social conditions With the rise of Fascism in Europe and particularly the ascent of Germany's Nazi Party Jews in Germany and eastern and western Europe were forced to cope with an eroding civil and social status increasing daily limitations and a dark future on the horizon This reality looked very different from the recent past of emancipation in which Jewish citizens had enjoyed civic equality and the advance of social integration In The Waning of Emancipation Jewish History Memory and the Rise of Fascism in Germany France and Hungary author Guy Miron examines how Jewish spokespeople from three European communities Germany France and Hungary confronted these challenges and whether they coped by holding onto historical perceptions that materialized during the emancipation era or by adopting new views Miron demonstrates that pre Holocaust Germany France and Hungary make interesting case studies because of the divergence of the starting points for emancipation in each country their unique and complex political cultures both during the golden age of emancipation and after its decline and the distinct relationship each held between church and state In three sections Miron considers the three countries in turn with two chapters devoted to how each community came to terms with the crisis in relation to its internal diversity and political divisions To analyze the evolving Jewish public discourse in each country Miron consults numerous primary sources including articles and essays that

appeared in Jewish journals and periodicals as well as literature mostly popular published by Jewish publishing houses Along the way Miron addresses wider questions of Jewish identity and self consciousness and the cultural memory of Jewish emancipation during the rise of Fascism Miron s examination of the range of Jewish responses to the waning of emancipation will contribute to the discourse on politics of representation of the past in each of the three countries and also draw attention to the internal diversity and political divisions within each Scholars of Jewish and European history will benefit from the careful research in this volume

German military figures had a certain terrifying glamour wrote Patrick Leigh Fermor recalling views about Germany during

the First World War When he asked had the bristling general replaced the philosophers and composers and bandsmen and peasants and students drinking and singing in harmony The enchanted forest symbol of Romantic idealism and traditional folktales had given way to other images of Germany and Germans By following Leigh Fermor and over eighty other British and North American literary visitors to Germany this original anthology shows how different generations of English speakers have depicted this country Starting in the sixteenth century with some of the earliest travel accounts in English Brian Melican presents a wide range of writing about or set in Germany Letters from Johnsonians such as Boswell and Garrick and the Romantic poets Coleridge and Wordsworth the journals of Herman Melville and Henry James ante bellum fiction by authors such as D H Lawrence and Ford Madox Ford all of this and more reveals an oft forgotten richness in encounters with Germany before the horrors of the twentieth century Work by Christopher Isherwood Stephen Spender and wartime reporters through the 1940s exposes the country s darkest moments while sometimes surprising takes on the conflict emerge from authors inside Germany with unique perspectives such as Christabel Bielenberg and Michael Howard Post war writing ranges from the spy fiction of Len Deighton to the writers who dissected post Nazi Germany The diversity of writing about Germany today encompasses light hearted accounts and more searching passages taken from an eclectic selection of authors Recorded and imagined images of Germany have changed dramatically across the centuries Yet views on many of its features especially its cities and rivers customs and cuisine have often remained constant This anthology with extensive introductions and annotations offers a range of opinions both typical and atypical of their time and invites readers to venture beyond the usual discussion about this country at the very heart of Europe
