Dudziak, 2008-07-02 In Exporting American Dreams Mary Dudziak recounts with poignancy and power the untold story of Thurgood Marshall's journey to Africa His experience in Kenya was emotional as well as intellectual and during it he developed ties of friendship with among others Tom Mboya and Jomo Kenyatta Marshall served as advisor to the Kenyans who needed to demonstrate to both Great Britain and to the world that they would treat minority races whites and Asians fairly once Africans took power He crafted a bill of rights aiding constitutional negotiations that enabled peaceful regime change rather than violent resistance Kenya's first attempt at democracy faltered but Marshall's African journey remained a cherished memory of a time and a place when all things seemed possible Poverty and Power Edward Royce, 2022-06-09 Poverty is a serious problem in the United States more so than commonly imagined and more so than in other industrialized nations Most Americans adhere to an individualistic perspective they believe poverty is largely the result of people being deficient in intelligence determination education and other personal traits Poverty and Power Fourth Edition challenges this viewpoint arguing that poverty arises from the workings of four key structural systems the economic the political the cultural and the social and ten obstacles to economic justice including unaffordable housing inaccessible health care and racial and gender discrimination The author argues that a renewed war on poverty can be successful but only through a popular movement to bring about significant change in the workings of American economic political and cultural institutions New to this Edition Enhanced conversation on why the cultural theory of poverty has such a strong appeal to the American public develops students critical thinking skills Chapter 3 New segment on the influence of job seekers physical appearance on hiring decisions showing that success is not simply a matter of education skills and training Chapter 4 New

A History of the American People: To 1877 Harry James Carman,1960 **Creating Consent in Ba'thist**

Syria Esther Meininghaus,2016-03-31 The challenge of maintaining dictatorial regimes through control co option and coercion while upholding a facade of legitimacy is something that has concerned leaders throughout the Middle East and beyond Nowhere is this more evident than in the Syria ruled by the Asads both Hafiz and his son Bashar Drawing on the example of the General Union of Syrian Women founded in 1967 Esther Meininghaus offers new insights into how the Syrian Ba thist regimes attempted to move beyond mere satisfaction with the compliance of the citizenry and to consolidate their rule amongst the local population Meininghaus argues that this was partially achieved through providing welfare services delivered by the Union as one of the state led mass organisations In this way she suggests these regimes did not only aim to undermine opposition and to create the illusion of consent but they factually catered to local needs and depended on consent Based on archival material interviews and statistics Creating Consent in Ba thist Syria will shed new light on mass organisations as a crucial institution of Ba thist state building and more broadly the construction of the Asad regimes

Churches in Contestation Parig Digan,1984 *Democracy's Mountain* Ruth M. Alexander,2023-09-26 At 14 259 feet Longs Peak towers over Colorado's northern Front Range A prized location for mountaineering since the 1870s Longs has been a place of astonishing climbing feats and unsurprisingly of significant risk and harm Careless and unlucky climbers have experienced serious injury and death on the peak while their activities equipment and trash have damaged fragile alpine resources As a site of outdoor adventure attracting mostly white people Longs has mirrored the United States tenacious racial divides even into the twenty first century In telling the history of Longs Peak and its climbers Ruth M

Alexander shows how Rocky Mountain National Park like the National Park Service NPS has struggled to contend with three fundamental obligations to facilitate visitor enjoyment protect natural resources and manage the park as a site of democracy Too often it has treated these obligations as competing rather than complementary commitments reflecting national discord over their meaning and value Yet the history of Longs also shows us how over time climbers the park and the NPS have attempted to align these obligations in policy and practice By putting mountain climbers and their relationship to Longs Peak and its rangers at the center of the story of Rocky Mountain National Park Alexander exposes the significant role outdoor recreationists have had as both citizens and privileged adventurers in shaping the peak s meaning use and management Since 2000 the park has promoted climber enjoyment and safety helped preserve the environment facilitated tribal connections to the park and attracted a more diverse group of visitors and climbers Yet Alexander argues more work needs to be done Alexander s nuanced account of Longs Peak reveals the dangers of undermining national parks fundamental obligations and presents a powerful appeal to meet them fairly and fully

A History of the American People Harry James Carman, Harold Coffin Syrett, 1952

Beyond the Boundaries Georgia A. Persons, 2017-09-29 In the past African American aspirations for political office were assumed to be limited to areas with sizeable black population bases By and large black candidates have rarely been successful in statewide or national elections This has been attributed to several factors limited resources available to African American candidates or identification with a black liberationist ideological thrust Other factors have been a relatively small and spatially concentrated primary support base of black voters and the persistent resistance of many white voters to support black candidates For these reasons the possibility of black candidates winning elections to national office was presumably just a dream Conventional wisdom conceded a virtual cap on both the possible number of black elected officials and the level of elective office to which they could ascend But objective political analysis has not always made sufficient allowances for the more universal phenomenon of individual political ambitions The contributors to this volume explore the ways ambitious individuals identified and seized upon strategies that are expanding the boundaries of African American electoral politics This volume is anchored by a symposium that focuses on new possibilities in African American politics Both the electoral contests of 2006 and the Barack Obama presidential campaign represent an emergent dynamic in American electoral politics Analysts are beginning to agree that the contours of social change now make the electoral successes of black candidates who are perceived as ideologically and culturally mainstream increasingly likely The debate captured in this volume will likely inspire further scholarly inquiry into the changing nature and dimensions of the larger dynamic of race in American politics and the subsequent changing political fortunes of African American candidates

Fear of a Yellow Vest Planet Peter Wilkin, 2021-06-29 The Yellow Vest Gilets Jaunes protests that started in November 2018 have rocked French political culture and led critics to denounce the movement as being a threat to democracy or worse Among other things the protestors were accused of being barbarians philistines racists anti Semites and reactionaries who would destroy both France and European civilization In fact this book argues that the protests must be understood as part of a wave of protests against the extension of the market into all areas of social life that have been taking place around the world since the 1980s While the Yellow Vest protests embrace a range of actors that cut across the French political spectrum the agenda that rapidly emerged from the movement in the shape of the People's Directive shows that it is a broadly progressive protest that has articulated radical ideas and practices with a view to transforming French political culture by means of direct democracy The end goal is to be a new social order which is environmentally sustainable and built around principles of social justice In this respect its ideas and actions are a challenge to mainstream French political culture

Power in Transition Paul J Dosal, 1995-07-30 Power in Transition examines the history of the economic elites who engineered Guatemala's return to constitutional rule in June 1993 Dosal traces the changes in the country's elites from the period of the early industrial pioneers to today's neoliberal reformers The inauguration of President Ramiro de Leon Carpio in June 1993 forms part of a historical process whereby the Guatemalan military is transferring the reins of government to the oligarchy During the military dictatorships of the last forty years the leadership of the oligarchy passed from the coffee barons to a relatively progressive group of industrialists financiers and a new breed of agro exporters Power in Transition makes contemporary political dynamics understandable by examining the origins and evolution of today's modernizing oligarchy Dosal traces the
