

Mini Guide: Buying an Acoustic Violin

what to look for when buying a violin

Basic Checklist

- ❑ The pegs turn without any resistance and hold the string evenly.
- ❑ No part of the violin is made out of plastic. Check the chin rest, pegs, fingerboard and tailpiece.
- ❑ You are able to press down the string comfortably. If not, the string probably is too tight above the fingerboard.
- ❑ The strings have even spacing.
- ❑ The violin is made out of solid wood.
- ❑ Try to play a few notes on several strings to see if it's easy to switch from string to string without hitting other strings? To check if the strings are evenly spaced.
- ❑ Have you the first tuners turn without any resistance. If you are beginner, it's recommended using a violin with a fine tuner.

- ❑ Most purring (the black strip) is made out of wood and not painted on the instrument.
- ❑ Is the violin the right size? As a general rule, you'll need a 4/4 violin. The biggest will suit a student from middle school.

Did you think at least to that point, you found a good violin for beginners that will last you.

Here are some other factors that you might want to consider:

Signs of quality

- ❑ The violin is hand built and the master of the violin has a good reputation. You can also find out from the locality and look in the violin or find information on the bridge having many years on the floor.
- ❑ Detailed carving on the scroll and/or on other parts of the instrument.
- ❑ Symmetry in all parts of the violin.
- ❑ The price & sound reflect the quality of the violin.
- ❑ It is advantage of buying a quality violin is that they are expensive in value and time. A quality violin can often be sold for the same price or more years later. For buying a quality violin, investment getting into it is a worthwhile decision.

Personal Aspects

- ❑ Does anyone else sound of the instrument?
- ❑ Do you like the way the violin looks?
- ❑ Do you feel comfortable playing the instrument?
