Virgin Territory English Edition:

Virgin Territory Julia Kelto Lillis, 2023 Women's virginity held tremendous significance in early Christianity and the Mediterranean world. Early Christian thinkers developed diverse definitions of virginity and understood its bodily aspects in surprising, often non-anatomical ways. Eventually, Christians took part in a cross-cultural shift toward viewing virginity as something that could be perceived in women's sex organs. Treating virginity as anatomical brought both benefits and costs. By charting this change and situating it in the larger landscape of ancient thought, *Virgin Territory* illuminates unrecognized differences among early Christian sources and historicizes problematic ideas about women's bodies that still persist today.

Muslim Cultures Today Kathryn M. Coughlin, 2006-05-30 There is strong demand for current, accurate and objective information about Islamic societies and Muslims around the world. This is the first survey for a general audience of key current topics in 16 countries with significant Muslim populations. Each chapter covering a country contains the following narrative elements: Overview, statistics, demographics of followers, brief history of their life there, Political Impact, Women's Status, Special Issues in the News, Notable People, biographical profiles and Resource Guide with Suggested Reading, Films, Videos, Websites and Organizations. The content ties in to World History standards to help analyze connections between globalizing trends in culture in the late 20th century and dynamic assertions of traditional cultural identity and distinctiveness as well as to the Global Connections part of Social Studies standards. This will be essential reading for those desiring a one-volume resource about hot spots in the news today. Countries profiled include Afghanistan, Albania, Bosnia and Herzegovina, Egypt, Ethiopia, India, Indonesia, Iran, Iraq, Nigeria, Pakistan, Russia, Saudi Arabia, Sudan, Turkey and Uzbekistan. Photos and maps help to put the narrative in perspective.

Space in the Tropics Peter Redfield, 2000-12-19 Rockets roar into space bearing roughly half the world's commercial satellites from the same South American coastal rainforest where convicts once did time on infamous Devil's Island. What makes *Space in the Tropics* enthralling is anthropologist Peter Redfield's ability to draw from these two disparate European projects in French Guiana a gleaming web of ideas about the intersections of nature and culture. In comparing the Franco-European Ariane rocket program with the earlier penal experiment, Redfield connects the myth of Robinson Crusoe, nineteenth-century prison reform, the Dreyfus Affair, tropical medicine, postwar exploration of outer space, satellite technology development and ecotourism with a focus on place and the incorporation of this particular place into greater extended systems. Examining the wider context of the Ariane program, he argues that technology and nature must be understood within a greater ecology of displacement and makes a case for the importance of margins in understanding the trajectories of modern life.

Unto a Good Land Vilhelm Moberg, 2008-10-14 The third book in Moberg's classic *Emigrant Novels* series.

What Has Changed? Dafydd Fell, Henning Klöter, Bi-yu Chang, 2006 In March 2000, for the first time in its history, Taiwan witnessed a democratic change in ruling parties. Given the contrasting stances on Taiwan's political and cultural belonging held by the defeated party, the KMT, and the new ruling party,

the pro independence DPP the change was a historical turning point Although there has been increasing interest in Taiwan Studies in the last decade no single volume has yet addressed the complexity and impact of the change in ruling parties in Taiwan This book aims to fill that gap by comparing the years before and after the DPP's transition to power Although the analytical starting point is the regime change of 2000 the scope of topics goes beyond party politics Designed to provide an all encompassing view the thirteen chapters examine and evaluate the extent to which the change in Taiwan's ruling party has resulted in a political social economic and cultural transformation of the island They build a complex picture of the differences and the perhaps surprisingly high degree of continuities between the two regimes The book addresses readers interested in interdisciplinary approaches to Taiwan's recent political social and cultural changes [Monthly Index of](#)

[Gender, Identity, and Tibetan Buddhism](#) June Campbell, 2003-01-01 Gender Identity and Tibetan Buddhism is a cross cultural study which creates links between the symbolic representations of gender in the philosophy of Tibetan Buddhism and contemporary thinking in relation to identity politics and intersubjectivity it traces some of the important cultural factors in the representations of gender in Tibet's archaic images its monastic institutions and in the light of Tibetan Buddhism's popularity in the west June Campbell raises important questions concerning the potential uses and abuses of power authority and secrecy in the sexual practices of Tibetan Tantra now that its teachings are being disseminated throughout the world

[Traveller in Space](#) June Campbell, 2018-05-31 In this revised edition of June Campbell's ground breaking and ambitious work many of the key issues concerning gender identity and Tibetan Buddhism are now broadened and further clarified in order to create a better understanding of the historical importance of gender symbolisation in the very construction of religious belief and philosophy With its cross cultural stance the book concerns itself with the unusual task of creating links between the symbolic representations of gender in the philosophy of Tibetan Buddhism and contemporary western thinking

in relation to identity politics and intersubjectivity A wide range of sources are drawn upon in order to build up arguments concerning the complexities of individual gender roles in Tibetan society alongside the symbolic spaces allocated to the male and female within its cultural forms including its sacred institutions its representations and in the enactment of ritual And in the light of Tibetan Buddhism's popularity in the west timely questions are raised concerning gender and the potential uses and abuses of power and secrecy in Tibetan Tantra which with its unique emphasis on guru devotion and sexual ritual is now being disseminated worldwide What is made clear in this new edition however is that Campbell's ultimate aim is to elucidate through the use of a psychoanalytical perspective something of the dynamic inter relationship between the inner lives of individuals their gender identities in society and the belief systems which they create in order to provide cohesion continuity and meaning whether it be in the east or the west

a harder time finding it Of course boys are virgins queers are virgins some people reclaim their virginities and others reject virginity from the get go So what if we agree to forget the hymen all together Might we start to see the instability of terms like untouched pure or innocent Might we question the act of sex the very notion of relational sexuality After all for many people it is the sexual acts they don t do or don t want to do that carry the most abundant emotional clout Virgin Envy is a collection of essays that look past the vestal virgins and beyond Joan of Arc From medieval to present day literature the output of HBO Bollywood and the films of Abdellah Ta a or Derek Jarman to the virginity testing of politically active women in Tahrir Square the writers here explore the concept of virginity in today s world to show that ultimately virginity is a site around which our most basic beliefs about sexuality are confronted and from which we can come to understand some of our most basic anxieties paranoias fears and desires *My Life-work* Samuel Smith,1902 The Pacific Coast Musician ,1925
