

SCOPE OF PRACTICE FOR NURSES

Nursing services must be provided with specialized judgment and skill, based on knowledge and application of the principles of biological, physical and social science as acquired by a completed course of study in an approved school of vocational or professional nursing.

LVNs and RNs must provide safe, compassionate nursing care as a member of the profession, provider of patient-centered care, patient safety advocate and member of the health care team.

Licensed Vocational Nurses (LVNs) and Registered Nurses (RNs), with a focus on patient safety, are required to function within the parameters of the legal scope of practice and in accordance with the federal, state and local laws, rules and regulations, and policies, procedures and guidelines of the employing health care institution or practice setting.

LICENSED VOCATIONAL NURSE (LVN)

- Has a directed scope of practice to provide focused nursing care that requires specialized judgment and skill.
- Requires appropriate supervision by an RN, APRN, physician, physician assistant, podiatrist or dentist for LVN practice.
- Does not perform medical diagnosis or prescription of therapeutic or corrective measures.
- Provides care to assigned patients with predictable health care needs.
- Utilizes a systematic approach to provide individualized, goal-directed nursing care by:
 - Collecting data and performing focused assessments.
 - Helping to plan nursing care for patients and to develop/modify the nursing plan of care.
 - Implementing appropriate aspects of nursing care.
 - Helping evaluate the patient's responses to nursing care.
- May help implement established teaching plans for patients with common health problems and their families with well-defined health learning needs.
- Cannot practice completely independently; however, direct and on-site supervision may not be required in all settings or patient care situations.
 - An appropriate clinical supervisor may need to be physically available to assist the LVN in emergencies.
 - The setting in which the LVN provides nursing care should have well-defined policies, procedures, and guidelines in which assistance and support are available from an appropriate clinical supervisor.
 - The LVN must ensure he or she has access to an appropriate clinical supervisor and that the policies, procedures and guidelines for that setting are established.
- Cannot delegate tasks to UAPs; however, LVNs may assign tasks to other LVNs and UAPs according to 22 TAC § 217.11(2).

REGISTERED NURSE (RN)

- Has an independent scope of practice to provide nursing services that requires substantial specialized judgment and skill.
- Does not require supervision by another health care provider for RN practice.
- Does not perform medical diagnosis or prescription of therapeutic or corrective measures, unless licensed as an advanced practice registered nurse.
- Provides care to patients and their families with complex health care needs.
- Utilizes a systematic approach to provide individualized, goal-directed, nursing care by:
 - Performing comprehensive nursing assessments of patients.
 - Making nursing diagnoses that serve as the basis for the strategy of care.
 - Developing a plan of nursing care.
 - Implementing nursing interventions.
 - Evaluating the patient's responses to nursing care.
- Teaches and counsels patients as part of the implementation phase of the nursing process.
- Initiates, delivers, assigns or delegates certain interventions within the plan of care for patients within legal, ethical and regulatory parameters with a focus on patient safety.
 - The RN considers a UAP's education, training, skill, competence, and physical and emotional abilities.
 - RNs may supervise LVNs. Supervision is defined as directing, guiding and influencing the outcome of an LVN's performance and activity. The RN may have to directly observe and evaluate the nursing care provided depending on the LVN's skills and competence, patient conditions and emergencies.
 - The RN is responsible for supervising unlicensed personnel when tasks are delegated. The proximity of supervision depends on patient conditions and skill level of the unlicensed personnel.

UAP: Unlicensed Assistive Personnel

The above is a synopsis of how the scope of practice for licensed vocational nurses differs from registered nurses in Texas. The Licensed Vocational Nurse Scope of Practice and Registered Nurse Scope of Practice Position Statements are accessible on the HHS webpage at www.hhs.texas.gov under the "Practice" menu tab. The level and impact of the nursing process differs between the RN and LVN as well as between the different levels of RN education according to the Board's Differentiated Essential Competencies of Graduates of Texas Nursing Programs.

Virginia Board Of Nursing Scope Of Practice:

Nursing Scope of Practice in Europe Douglas Long, 2024-10-01 Nursing Scope of Practice in Europe is every nurse's guidebook to understanding this subject. Nurses will learn what they need to do to keep their patients safe and stay within the legal limits of a nursing license as well as their employer's policies. Just as important, nurses will learn how to take on new roles and expand their scope of practice safely and responsibly. Europe is a vast region with a diversity of laws, economies, healthcare practices, and languages. Nurses need to understand what is consistent across the region and what is different in their country. In any European country, nursing leaders, government regulators, and scholars will better understand how the nursing scope of practice defines the profession and how it can be used to promote nursing professionalism. The region's top nurse experts came together to explain their respective countries and the major trends that affect everyone. They show the reader what is the consensus on nursing regulations where there is conflict and differences and where are the opportunities for change and growth. Douglas Long brings a wealth of nursing experience in emergency departments and acute care. He is the author of *Nursing Scope of Practice 2021: Nursing Moving Forward 2020* and *mbito de la pr ctica profesional de enfermer a en Am rica Latina 2023*.

The pedagogical tools include chapter summaries with quiz questions and case studies. Instructors also have access to PowerPoint slides and test banks. This book is an excellent resource for students and individuals interested in working in long-term care and other health care industries. The updated best practices for clinical and non-clinical roles within the facility and material on resident advocacy and other important topics provide valuable information for the reader. Working professionals can benefit from the emphasis placed on practical approaches to facilitate person-centered and whole-person care and a facility's sustainability. *Health Policy and Advanced Practice Nursing, Second Edition* Kelly A. Goudreau, Mary C. Smolenski, 2017-12-28. Praise for the First Edition: There are many policy books, but none are written by APRNs or focus just on APRN practice. APRNs are at the core or can be if they use their practice knowledge and education to shape policy. The editors eloquently make the case that policy formation is a critical nursing skill. Doody's Medical Reviews: The only book of its kind, this text offers a wealth of information about the role of all types of APRNs: NPs, CNSs, CNMs, and CRNAs in influencing the development and application of health care policy in a wide range of specialties. Featuring nine completely new chapters, the second edition delivers an invigorated focus on developing policy that advocates for vulnerable populations and discusses how the incorporation of interprofessional education has changed and will continue to alter health policy in the U.S. and internationally. The text also discusses the evolving influence of the Patient Protection and Affordable Care Act (PPACA) and the implications of current and future health policy changes that will be impacting the practice of various APRN roles. Authored by APRN luminaries who have been closely involved with health policy development, the text meets the

requirements of the IOM report on The Future of Nursing and the DNP criteria V for the inclusion of health policy and advocacy in the curriculum This call to action for APRNs is specifically designed for courses enrolling students from a variety of APRN trajectories and includes content from all APRN role perspectives in every section New to the Second Edition Emphasizes policy development advocating for vulnerable populations Discusses the current and future influence of interprofessional education on health policy in the U S and worldwide Addresses how health policy changes will impact the various APRN roles Includes nine new chapters on Health Policy and its Effect on Large Systems Value Based Purchasing Health Care Reform and Independent Practice Health Policy Implications Regarding Substance Abuse PTSD Treatment Genetics Competency Issues and The International Council of Nurses Key Features Addresses role specific policy needs of all four APRN roles and DNPs Encompasses all requisite information about health care policy and reform in the U S and worldwide and its impact on advanced practice nursing Meets the requirements of IOM s The Future of Nursing and DNP criteria V Explains how and why APRNs can and should influence policy development Discusses implications of not participating in health policy decisions
