The Sleeping Bard; Or, Visions of

the World, Death, and Hell Ellis Wynne, 2019-12-20 In *The Sleeping Bard Or Visions of the World Death and Hell* Ellis Wynne weaves an intricate tapestry of allegorical narrative steeped in metaphysical inquiry and moral reflection. Written in a rich evocative style that combines elements of both the Welsh literary tradition and the reflective contemplations found in early modern spiritual literature, Wynne's work contemplates the human condition through a dreamlike series of visions. This book, influential in its time, serves as a profound meditation on mortality, the afterlife, and the dichotomy between the earthly and the ethereal, revealing the psychological and spiritual struggles of humanity in the face of divine judgment and existential uncertainty. Ellis Wynne, a prominent figure of 17th century Welsh literature, was deeply influenced by the socio-political and religious upheavals of his era. His background in theology and his engagement with the pivotal questions of life and death drove him to undertake this ambitious work. By immersing himself in the rich cultural and philosophical milieu of his time, Wynne crafted a narrative that resonates with the universal quest for meaning and salvation. Readers seeking a profound exploration of life's ultimate questions will find great value in this haunting allegory. Wynne's masterful use of language and poignant themes encourages introspection and offers an invaluable historical perspective, making this text essential for anyone interested in the intersection of literature, spirituality, and human experience. [Death-bed Visions](#) Sir William Barrett, 1986 A nineteenth-century British physician examines cases of dying individuals hearing music, having visions of the spirit leaving the body, and seeing people who were already dead.

The Making of the Alice Books Ronald Reichertz, 2000 Analysing Lewis Carroll's Alice books in the context of children's literature from the seventeenth through the nineteenth century, Ronald Reichertz argues that Carroll's striking originality was the result of a fusion of his narrative imagination and formal and thematic features from earlier children's literature. *The Making of the Alice Books* includes discussions of the didactic and nursery rhyme verse traditionally addressed by Carroll's critics, while adding and elaborating connections established within and against the continuum of English language children's literature. Drawing examples from a wide range of children's literature, Reichertz demonstrates that the Alice books are infused with conventions of and allusions to earlier works and identifies precursors of Carroll's upside-down looking glass and dream vision worlds. Key passages from related books are reprinted in the appendices, making available many hard-to-find examples of early children's literature. *The Throne Room Vision* Ahmed Musa, 2024-12-15 Step into a realm of divine

Inside Star Vision is a landmark astrology book for the twenty first century and centuries to come It views human destiny and the life and death travels of individual souls as part of the larger journey undertaken by the universe itself in various modes of being and intelligence Lonsdale not only leads us through signs houses and planets but also interprets them in the context of broader archetypes and vision quests He delineates the years 2000 2001 2002 2003 2004 2005 and 2006 and in a daring and profound act of spiritual writing he sets the cosmic terms for the imminent transformation of humanity through an opening of the door between the two most separated realms of all life and death **The Book of Amos** M. Daniel Carroll R.,2020-11-19 In this commentary on the book of Amos Daniel Carroll combines a detailed reading of the Hebrew text with attention to its historical background and current relevance What makes this volume unique is its special attention to Amos's literary features and what they reveal about the book's theology and composition Instead of reconstructing a hypothetical redactional history this commentary offers a close reading of the canonical form against the backdrop of the eighth century BCE *The Visions of the Sleeping Bard, Being Ellis Wynne's "Gweledigaethu Y Bardd Cwsc"* Ellis Wynne,1897 All in the Mind? Occult Roots of Religious Studies Yves Mühlematter, Helmut Zander, 2021-06-08 The historiographers of religious studies have written the history of this discipline primarily as a rationalization of ideological most prominently theological and phenomenological ideas first through the establishment of comparative philological and sociological methods and secondly through the demand for intentional neutrality This interpretation caused important roots in occult esoteric traditions to be repressed This process of purification Latour is not to be equated with the origin of the academic studies De facto the elimination of idealistic theories took time and only happened later One example concerning the early entanglement is Tibetology where many researchers and respected chair holders were influenced by theosophical ideas or were even members of the Theosophical Society Similarly the emergence of comparatistics cannot be understood without taking into account perennialist ideas of esoteric provenance which hold that all religions have a common origin In this perspective it is not only the history of religious studies which must be revisited but also the partial shaping of religious studies by these traditions insofar as it saw itself as a counter model to occult ideas
