American politicians Hoover and Bush reached the pinnacle of political achievement only to lose in the court of popular opinion. From two photo ops that occurred almost eighty years apart, Lester offers a model for close readings and comparisons of images in practicing visual history. Under Lester's examination, these otherwise unremarkable photographs speak volumes about political response to natural disasters. He offers readers not just a deeper appreciation of these pictures but a methodology for seriously studying photographs and what they can reveal about a historical moment. Paul Martin Lester is a professor of communications at California State University Fullerton. He is the author of *Visual Communication: Images with Messages* and *Photojournalism: An Ethical Approach* and coeditor of *Images That Injure: Pictorial Stereotypes in the Media*.

[The Media World of ISIS](#) Michael Krona, Rosemary Pennington, 2019-11-01. This anthology explores how ISIS used media and propaganda, shedding light on the characteristics, mission, and tactics of its messaging. From efficient instructions on how to kill civilians to horrifying videos of beheadings, no terrorist organization has more comprehensively weaponized social media than ISIS. Its strategic multiplatformed campaign is so effective that it has ensured global news coverage and inspired hundreds of young people around the world to abandon their lives and their countries to join a foreign war. Contributors consider how ISIS's media strategies imitate activist tactics, legitimize its self-declared caliphate, and exploit narratives of suffering and imprisonment as propaganda to inspire followers. Using a variety of methods, contributors explore the appeal of ISIS to Westerners, the worldview made apparent in its doctrine, and suggestions for counteracting the organization's approaches. Its highly developed, targeted, and effective media campaign has helped make ISIS one of the most recognized terrorism networks in the world. Gaining a comprehensive understanding of its strategies will help combat the new realities of terrorism in the twenty-first century.

Persuasion and Influence in American Life Gary C. Woodward, Robert E. Denton, Jr., 2013-12-23. For more than twenty-five years, the authors have highlighted the complexities, subtleties, and pervasive influence of persuasive messages. The seventh edition again blends historical, rhetorical, and social psychological approaches to persuasion theory. The engaging discussions and multiple examples introduce the intricacies of social influence and highlight methods of presentation as well as evaluation. The dynamic topic of persuasion presents a constantly changing palette for analysis. The authors dissect theory and practice in multiple contexts, from interpersonal interactions to public communication and persuasive campaigns to advertising to politics. Twitter, YouTube, and social networking sites offer new media for persuasive appeals. The means of persuading one another changes constantly, yet much of what was written by Aristotle continues to be relevant. The production of persuasive messages and the study of message effects have been and will continue to be fertile ground for exploration. Persuasion is an interactive process requiring willing and attentive participants. Becoming responsible, ethical, and credible persuaders involves systematic thinking and informed preparation. The skills required for planning, composing, and delivering effective messages are equally useful for evaluating messages received. The seventh edition provides a thorough, up-to-date discussion of classic and contemporary theories of

persuasion to aid readers in developing skills as effective persuaders and as critical consumers of persuasive messages
