**Starstruck** Adrienne Fox, 2012-10-19 This is a Christmas Story with a difference 21st century science has opened our eyes to Gallaxies But why forget that a Star from the East guided Shepherds and Kings As astronomy reveals yet more of the mysteries of the Universe our delights and parameters will extend and *Star Struck* will add another dimension *Starstruck* Albert A. Harrison, 2007 We live in an era of exploding scientific knowledge about the universe and our place and future within it Much of this new knowledge conflicts with earlier wisdom and some has frightening implications Cosmic evolution space exploration the search for extraterrestrial life and concerns about humanity's future prompt us to seek new answers to old existential questions Where did we come from Why are we here Are we alone What will become of us In our search for answers we turn to science religion myth and varying combinations thereof Exploring an ambiguous region between recognized findings and unfettered imagination *Starstruck* explores the multifaceted far reaching and often contentious attempts of people with contrasting worldviews to develop convincing and satisfying interpretations of rapidly accumulating discoveries in physics astronomy and biology Starstruck Sarafina El-Badry Nance, 2023-06-06 In a beautifully written science packed and inspirational memoir Egyptian American astrophysicist Sarafina El Badry Nance shares how she boldly carved out a place in the field of astrophysics grounding herself in a lifelong love of the stars to face life's inevitable challenges and embrace the unknown As a child Sarafina El Badry Nance spent nearly every evening with her father gazing up at the flickering stars and pondering what secrets the night sky held The daughter of an American father and Egyptian

mother who both pushed her toward academic excellence Sarafina dreamed of becoming an astronomer and untangling the mysteries of the stars overhead But it wasn't long before she was told both explicitly and implicitly that girls just weren't cut out for math and science In *Starstruck* Sarafina invites us to consider the cosmos through fascinating science lessons to open each chapter But she also traces more earthbound obstacles of misogyny and racism abuse and intergenerational trauma anxiety and self doubt cancer diagnoses and recovery she faced along the way As her career and passion for space brought her from UT Austin to UC Berkeley and even to a Mars astronaut simulation in Hawai'i Sarafina learned how to survive and ultimately thrive in a space that was seldom welcoming to women and especially not to women of color Honest and empowering *Starstruck* sits at the intersection of the study of our cosmos itself constantly changing and the transformative experience of embracing resilience to pursue one's passion      *Starstruck* RaeAnne Thayne, 2017-04-10 Available as a single edition ebook for the first time revisit a classic holiday love story by New York Times bestselling author RaeAnne Thayne
