A Reader's Guide to Contemporary Literature William Swan Sonnenschein,1895

Transformations and Crises Thomas Ekman Jørgensen,2008-10-01 The Left in the

1960s and 1970s has a powerful almost mythical place in the history of the 20th century It was during these decades that the radical Left managed to renew the language of socialism as an alternative to communism and liberalism alike but also when radicalism often led to extremism and social movements turned into political sects Focusing on the Left in Denmark and Sweden during those turbulent decades this study pays close attention to the political language in the two countries and shows the constant challenge to the concepts of the Left in the face of rapid social cultural and political changes The precarious relationship between the Left and the nation serves as a starting point for the exploration of the development of the New Left after the break with communism the subsequent student revolts and radicalization of the late 1960s until the movement s apparent collapse at the end of the 1970s This book illustrates the challenges the Left was facing in its attempt to articulate a credible political language at a time of social cultural and political transformation *A Reader's Guide to the Choice of the Best Available Books (about 50,000) in Every Department of Science, Art & Literature, with the Dates of the First & Last Editions, & the Price, Size & Publisher's Name of Each Book* William Swan Sonnenschein,1901 *The Routledge Companion to American Film History* Pamela Robertson Wojcik,Paula J. Massood,2025-02-12 Presenting new and diverse scholarship this collection brings together original essays that explore American film history from a fresh perspective Comprising an introduction and 34 chapters written by leading scholars from around the globe and edited by Pamela Robertson Wojcik and Paula J Massood this collection offers discussions of the American film industry from previously unexplored vantage points Rather than follow a chronological format as with most film histories this Companion offers a multiplicity of approaches to historiography and is arranged according to often underdeveloped or overlooked areas in American film including topics such as alternate archives hidden labor histories of style racialized technologies cinema s material cultures spectators and fans transnational film production intermedial histories history in and about films and the historical afterlives of cinema An exciting collection for serious film studies students and scholars interested in new perspectives and fresh approaches to thinking about and doing American film history *Compassion* Travis A. Miller,2022-08-24 What does it mean to be compassionate How does it go beyond merely caring for others The last several years in America have seen a sharp decline in compassion A deep political divide has surfaced and even worse those who are called most to be compassionate and caring have often betrayed the very beliefs they profess It has created a roiling climate where us against them has become the initial focus on every issue Each side would rather win than be proven right because the other is automatically wrong simply by being the other At the center of this battle is the Christian faith which has been exploited by some and compromised by others The same people that derided Bill Clinton in the nineties for his personal indiscretions now laud Donald Trump as a savior despite similar indiscretions For those that were raised in this it can cause a crisis of faith **The Best Books: a Readers Guide to the Choice of the Best Available Books (about 50.000)...** William Swan Sonnenschein,1895 **Cosmos 1999 - The Third Year of Space 1999** John K. Balor,2019-07-10 What does

Gerry Anderson's television series SPACE 1999 have in common with Carl Sagan's award winning television documentary COSMOS Not very much one might expect but this book documents an Online Alpha discussion where fans of the science fiction series discuss and debate differences and similarities from a wide range of perspectives some of them arguing that two series may be so closely connected that it might be natural to think of COSMOS as the third year of SPACE 1999 This book is written on an idealistic basis It is sold at the lowest price the publisher was willing to accept A free e book version can be downloaded at www.lulu.com
