science journalist Abigail Beall takes readers on an astonishing journey through the landscape of space. In *The Art of Urban Astronomy* you will be guided through the seasons and learn about the brightest stars and constellations, the myths and legends of astronomy and how to identify star clusters and galaxies with just your eyes or a pair of binoculars. For urban dwellers wrapped up in the rush and bustle of the city, it can be calming and truly valuable to take the time simply to stop, look, and reconnect with nature. Packed full of seasonal star charts, constellation charts, and fascinating facts, this is the perfect guide for those who have looked up at the night sky and don't know where to begin. After reading this book, you'll never look up in the same way again. *Stargazing Under Suburban Skies* Malcolm Zack, Andrew Gannon, John McRoberts, 2018-08-20. Anyone interested in astronomy battles with the conveniences of modern living: street lights, advertising, and security lighting; tall buildings; and even the occasional tree. More than 85% of the population now lives in crowded and light-polluted towns and cities. This book is for those who live in or near towns and cities and own relatively modest equipment, although observers with larger instruments will still find many of the target objects of interest. The book encourages the use of star-hopping techniques to find objects in the night sky. Included is a list of 100 popular deep sky objects ranked according to how difficult they are to find. Each object is described and has companion star-hopping charts, images, and sometimes sketches. As a result, readers can gain a sense of their own backyard view from Earth. There is also a top 30 list of lunar objects, a section on planetary observing, annotated lists of popular astronomy apps and software, and tips on how to make the most of your location. *Stargazing Under Suburban Skies: A Star Hopper's Guide* is the essential companion to what can be seen and how, regardless of the obstacles. *Doctor Who: The Unfolding Event — Marketing, Merchandising and Mediatizing a Brand Anniversary* Matt Hills, 2015-07-22. The BBC TV series *Doctor Who* celebrated its 50th anniversary in 2013; this book analyses how promotional commemorative merchandise and 3D cinema screenings worked paratextually to construct a popular media event while sometimes uneasily integrating public service values and consumerist logics. ***The Rough Guide to South America On a Budget***, 2013-10-31.
