Destroy All Enemies in Bloons TD 6 Minh Hoang Pham, 2019-08-24 Bloons TD 6 is a great tower defense game that will give you hours and hours of fun Here are some general tips to help you get started and familiarized with the game The Bloons are back and better than ever Get ready for a massive 3D tower defense game designed to give you hours and hours of the best strategy gaming available Craft your perfect defense from a combination of awesome monkey towers upgrades Heroes and activated abilities then pop every last Bloon that comes your way There s something about the monkeys and balloons in Bloons TD 6 that s simply delightful Your cute primate friends come in all shapes and sizes from pirates to super heroes Your enemies the balloons seem so innocent and innocuous of course they

would they be balloons Yet the scenario remains if the balloons get to the end you'll lose lives so your cute primates must do battle with evil There's no story it just is the way of the world and it sets a tone for Bloons that evokes a childlike sense of joy that just works It's a tower defense game that owns its world knows its identity and never lets itself be more than it should be The result is a product worth the time of anyone looking for a little piece of happiness The gameplay in Bloons is simple enough You build monkeys which act as the game's towers and then upgrade them to stop wave after wave of balloons Balloons follow a set path so you can't create a maze to slow them down but otherwise you're free to place your towers as you please While the game is not an action tower defense game you can upgrade towers to have special abilities you can trigger during waves and some towers do damage based on the location of your cursor so if you're looking for an active role during waves it's there but not required It's simple but the towers and level design will keep you coming back for more The variety in towers is broad While a few seem worthless and some are clearly overpowered there's still room to customize your strategy to the way you want to play and still find success While some may opt for a few central towers surrounding a hub that buffs them all others may choose to spread their towers out across the land Either way works on most maps if you have the right upgrades though the first is still significantly better Better still the towers are so absurd that you'll want to experiment and play with them all simply to see what they can be As you play your cannon becomes a nuclear missile your pirate ship becomes a modern battleship and your super hero becomes a sun god These evolutions are exciting and fun to use every time you get one which ensures you're always happy to continue building to the next step Let's take a look at this book
