Starting Out With C 7th Edition:

Starting Out with C++ Tony Gaddis, Judy Walters, Godfrey Muganda, 2011 Tony Gaddis's accessible step by step presentation helps beginning students understand the important details necessary to become skilled programmers at an introductory level. Gaddis motivates the study of both programming skills and the C programming language by presenting all the details needed to understand the how and the why but never losing sight of the fact that most beginners struggle with this material. His approach is both gradual and highly accessible, ensuring that students understand the logic behind developing high quality programs. In **Starting Out with C Early Objects**, Gaddis covers objects and classes early, after functions and before arrays and pointers. As with all Gaddis texts, clear and easy to read code listings, concise and practical real world examples, and an abundance of exercises appear in every chapter. This text is intended for either a one semester accelerated introductory course or a traditional two semester sequence covering C programming.

Sexually Transmitted Diseases Sourcebook, 7th Ed. Village Medical Manual 7th Edition Mary Vanderkooi, 2019-08-01 Village Medical Manual is a user friendly two volume healthcare guide for lay workers in developing countries with special features that trained medical professionals would also find useful. The intended use is for those who are required by location and circumstances to render medical care. The clear vocabulary, along with over a thousand illustrations and diagrams, help Western educated expatriates in isolated locations to medically treat people and intelligently refer those that can be referred accordingly. It contains clearly defined procedural techniques and diagnostic protocols for when sophisticated instrumentation and lab tests are not available. It also offers solutions and advice for overcoming barriers to best practices in global health. Volume 1 Principles, Procedures, and Injuries elucidates medical procedures for routine medical care as well as emergency situations. Volume 2 Symptoms, Illnesses, and Treatments includes vast disease common and tropical, drug and regionally relevant indices to assist the reader in step by step diagnoses and treatment. This is a crucial reference for all who lack formal global health training but must know how to meet health care challenges in developing areas lacking medical infrastructure. Special features include Epidemiological disease maps, Detailed diagnostic triage protocols, Safety criteria for skills relevant to performing procedures, Bush Laboratory Procedures appendix, Drug name cross reference lists, Reference chart for determining unknown patient age, Patient history physical exam forms, Critically ill patient appendix for hospice oriented care, Water purification procedures, Extensive index for easy navigation. The Combined eBook has approximately 20,000 internal hyperlinks for easy cross referencing. The fixed page layout allows for perfect parity with the print version. For added convenience, get anywhere in the eBook within four clicks.
