Maher,Sungho Park,Bruce D. McDonald III,Steven C. Deller,2023-02-01 Understanding Municipal Fiscal Health provides an in depth assessment of the fiscal health of cities throughout the United States The book examines the tools currently available to cities for designing a revenue structure measuring fiscal conditions and measuring fiscal health It explains how artificial policies such as tax and expenditure limitations influence fiscal policies and how communities can overcome socioeconomic and state policy barriers to produce strong fiscal conditions The authors go beyond simple theory to analyze patterns of fiscal health using actual financial

demographic and TEL data from an accurate data source the Government Financial Officers Association survey The book offers a solid basis of empirical evidence including quantitative case studies complete with discussion questions to help practitioners better understand the environment in which they are functioning and the policy tools they need to help advocate for change This book teaches the reader the science and art of municipal financial analysis and will be invaluable for local and state officials analysts and students and researchers Understanding Nursing Research: First South Asia Edition, E-Book Susan K. Grove, Jennifer R. Gray, 2019-02-18 Understanding Nursing Research First South Asia Edition E Book **Fundamentals of Crime Mapping: Principles and Practice** Rebecca Paynich, Bryan Hill, 2009-04-16 **Public / Community Health and Nursing Practice** Christine L. Savage, 2019-10-10 How do you solve population level health problems and develop appropriate nursing interventions This unique problem solving case based approach shows you how You ll encounter different case studies in every chapter that explore concepts such as community assessments public health policy and surveillance Step by step you ll develop the knowledge and skills you need to apply public health principles across a variety of health care settings special populations and scenarios **Evaluation of Quality in Health Care for DNPs, Third Edition** Joanne V. Hickey, Eileen R. Giardino, 2021-07-06 Now in its third edition this award winning text work is the only advanced practice nursing text to present effective systematic and in depth evaluations of all aspects of health care quality Comprehensive in scope it distills best practice information from numerous sources to facilitate utmost competency for APN and DNP graduates The third edition keeps pace with the rapidly evolving healthcare market by presenting a more comprehensive range of evaluation strategies for analyzing quality safety and value in healthcare practice and programs It provides a completely new chapter on evaluation of simulation programs to improve clinician competency and patient care technology An increased focus on the application of quality improvement is woven throughout including the quality improvement research continuum and an emphasis on interdisciplinary collaboration and teamwork New case studies specific examples from a variety of QI projects and content specifically geared to improve teamwork also add to the book s outstanding value The text also delves into the theoretical basis of evaluation and its application as an integral part of contemporary practice It includes evaluation models that enable nurses to address economic and financial viability and guides readers through the translation of outcomes from evaluation into health care policy Additionally the text now includes PowerPoints for instructors New to the Third Edition New chapter Evaluation of Simulation to Support Ongoing Competency in the HC Workforce Additional case studies and specific examples from QI projects Increased focus on teamwork and collaboration Enhanced discussion of theoretical foundations of evaluation approaches New focus on program evaluation and dissemination of findings Key Features Addresses AACN competencies and scope of practice Helps students integrate best and evidence based practices into care Provides guidance on practical methods and tools for Quality Improvement Project Presents evaluation models enabling nurses to address economic and financial viability Includes evaluations of organizations

systems standards for practice health care redesign and the challenges of electronic medical records **Evidence-Based Practice for Nurses** Nola A. Schmidt, Janet M. Brown, 2017-12-06 Evidence Based Practice for Nurses Appraisal and Application of Research Fourth Edition is an essential resource for teaching students how to translate research into practice

Malaria Control in Humanitarian Emergencies World Health Organization, 2013 This second edition represents a thorough updating and revision of the first edition The structure remains similar but includes an additional chapter on humanitarian coordination All chapters have been revised to reflect changes in best practices improvements in technologies availability of new tools and changes in WHO recommendations The interagency handbook was developed to set out effective malaria control responses in humanitarian emergencies particularly during the acute phase when reliance on international humanitarian assistance is greatest It provides policy makers planners and field coordinators with practical advice on designing and implementing measures to reduce malaria morbidity and mortality in both man made and natural disasters Such measures must address the needs of all affected population groups and accommodate changing needs as an acute emergency evolves into either recovery or chronic emergency phase Ideal or gold standard approaches to malaria control are not always feasible in humanitarian emergencies Interventions must be adapted to the realities of each emergency Using this handbook should help humanitarian workers implement effective and concerted responses to malaria problems

Professional Case Management Teresa Treiger, Ellen Fink-Samnick,2015-04-15 This book is about the progressive improvement of case management beyond that which it exists to that of a practice specialty focused on professionalism and collegiality across all practice settings Our desire to produce a framework for such practice began when we connected several years ago It was a result of a dialogue the sharing of our stories and experiences Separately we were already passionate about and committed to case management excellence Together our vision coalesced to form this competency based framework for advancing case management captured by an acronym which defined the essence of professional practice COLLABORATE We spent hours discussing the implications of a perceived epidemic involving less than productive

interactions between individuals working under the title of case manager with consumers providers and clinical colleagues These accumulated experiences heightened our commitment to lead much needed change Our conversation endured over many months as we realized a shared Respect for case management s rich heritage in healthcare across professional disciplines and practice settings Concern for those factors which devalue case management s professional standing Agreement that while the practice of case management transcends many representative professional disciplines and educational levels each stakeholder continues to cling to their respective stake in the ground and Belief of the importance for case management to move from advanced practice to profession once and for all COLLABORATE was borne from a vision the mandate to solidify a foundation for case management practice which combines unique action oriented competencies transcends professional disciplines crosses over practice settings and recognizes educational levels The ultimate focus is on improving the client s health care experience through the promotion of effective transdisciplinary collaboration COLLABORATE recognizes the hierarchy of competencies and practice behaviors defined by the educational levels of all professionals engaged associate bachelors masters and doctoral degrees across practice disciplines Through this approach every qualified health and human service professional has a valued place setting at case management s ever expanding table Each of the competencies are presented as mutually exclusive and uniquely defined however all are complementary and call on the practitioner to conduct work processes in a wholly integrated manner While appearing in order for the acronym s sake they are not necessarily sequential Ultimately case management is an iterative process When united in a comprehensive and strategic effort the COLLABORATE competencies comprise a purpose driven powerful case management paradigm The agility of this model extends to use of key concepts that include both action oriented verbs and nouns which are significant elements in any professional case management endeavor To date case management practice models have been driven by care setting and or business priorities Unfortunately this exclusivity has contributed to a lack of practice consistency due to shifting organizational and regulatory priorities However this is only one reason for a fragmented case management identity COLLABORATE recognizes and leverages these important influencers as critical to successful practice and quality client outcomes Interprofessional education and teamwork are beginning to emerge as the means to facilitate relationship building in the workplace Through this approach health care practitioners absorb the theoretical underpinning of intentionally work together in a mutually respectful manner which acknowledges the value of expertise of each care team stakeholder This educational approach provides the opportunity to engage in clinical practice that incorporates the professional standards to which we hold ourselves accountable Innovative and emerging care coordination models defined by evidence based initiatives appear across the industry Each promotes attention to interprofessional practice in order to achieve quality patient centered care Herein lies an opportunity to demonstrate the value drawn from diverse expertise of case managers comprising the collective workforce However a critical prefacing stage of this endeavor involves defining a core practice

paradigm highlighting case management as a profession The diverse and complex nature of population health mandates that case management intervene from an interprofessional and collaborative stance While inherent value is derived from the variety of disciplines this advanced model unifies case management's unique identity Now is the time to define and adopt a competence based model for professional case management COLLABORATE provides this framework This text is presented in four sections Section 1 Historical validation of why this practice paradigm is critical for case management to advance to a profession Section 2 Presentation of the COLLABORATE paradigm with a chapter devoted to each distinct competency and the key elements Section 3 Practical application of the book's content for use by the individual case manager and at the organizational level and The Epilogue Summarizes the COLLABORATE approach in a forward looking context For the reader with limited time reviewing Section 2 provides the substantive meat associated with each of the competencies Our ultimate desire is that the COLLABORATE approach provides an impetus for all stakeholders e.g. practitioners educational institutions professional organizations to take the necessary steps toward unified practice in order to facilitate the transition of case management considered as a task driven job to its recognition as being a purpose driven profession The book provides a historical validation of why this new practice paradigm is critical for case management to advance as a profession presents the COLLABORATE paradigm with a chapter devoted to each distinct competency and the key elements and covers the practical application of the book's content by individual case managers and at the organizational level Zaccagnini & White's Core Competencies for Advanced Practice Nursing: A Guide for DNPs Diane Schadewald, 2024-01-04 Zaccagnini White's Core Competencies for Advanced Practice Nursing A Guide for DNPs Fifth Edition continues to be the only textbook intended as the go to resource to help students understand what it means to be a DNP Across the nation Doctorate of Nursing Practice DNP programs can now be found in every state with program growth continuing In April 2021 the AACN released the new Essentials Core Competencies for Professional Nursing practice Although this shifts the Essentials from degree based competencies to practice level based competencies there remains a great need for a dedicated resource that serves as the template for new and existing DNP programs to support faculty and students as they collectively participate in DNP programming teaching and direct care service in multiple roles Statistics for Criminology and Criminal Justice Ronet D. Bachman, Raymond Paternoster, 2016-01-13 Statistics for Criminology and Criminal Justice Fourth Edition offers students a practical and comprehensive introduction to statistics and highlights the integral role research and statistics play in the study of criminology and criminal justice Packed with real world case studies and contemporary examples utilizing the most current crime data and empirical research available students not only learn how to perform and understand statistical analyses but also recognize the connection between statistical analyses use in everyday life and its importance to criminology and criminal justice Written by two well known experts in the field Ronet D. Bachman and Raymond Paternoster continue to facilitate learning by presenting statistical formulas with step by step instructions for calculation This how to calculate and

interpret statistics approach avoids complicated proofs and discussions of statistical theory without sacrificing statistical rigor The Fourth Edition is replete with new examples exploring key issues in today s world motivating students to investigate research questions related to criminal justice and criminology with statistics and conduct research of their own along the way Give your students the SAGE edge SAGE edge offers a robust online environment featuring an impressive array of free tools and resources for review study and further exploration keeping both instructors and students on the cutting edge of teaching and learning
