Robb, 2012-09-06 George Lucas was a rebel refusing to make films in the style of the dying studio system relentlessly pushing the technology of the day and almost alone in understanding the potential of merchandising but he was a rebel who built an empire From the staggering unexpected success of the original Star Wars in 1977 when cinema attendances exceeded 20 million for the first time since 1963 through *The Empire Strikes Back* and *Return of the Jedi* then the dark times the 16 years leading to the blockbusting prequel trilogy this is the fascinating story of how it all happened Life long Star Wars fan and movie journalist Brian J Robb edited the official Star Wars magazine for a decade and visited the sets of *Attack of the Clones* and *Revenge of the Sith* in Australia observing director George Lucas at work as well as the famous Skywalker Ranch He has interviewed many of the stars and crew of all six Star Wars movies *The Transmedia Franchise of Star Wars TV* Dominic J. Nardi, Derek R. Sweet, 2020-11-11 While previous work on the Star Wars universe charts the Campbellian mythic arcs political representations and fan reactions associated with the films this volume takes a transmedial approach to the material recognizing that Star Wars TV

projects interact with and relate to other Star Wars texts The chapters in this volume take as a basic premise that the televisual entrants into the Star Wars transmedia storyworld are both important texts in the history of popular culture and also key to understanding how the Star Wars franchise and thus industry wide transmedia storytelling strategies developed The book expands previous work to consider television studies and sharp cultural criticism together in an effort to bring both long running popular series long ignored texts and even toy commercials to bear on the franchise s complex history
